

## RED TAPERS GO ON JOB

### Congress Faces Crucial Days

Political Tricks Hauled Out in Effort to Necessitate Session in Summer

Foes of Administration Try to Cause Delays During This Final Period

By ELLIS D. PALMER

WASHINGTON, Feb. 3. (Reuter)—The Senate took up the McNary-Haugen farm-relief bill.

Senate committees postponed action on the Coughlin and Smith cases.

An attempt to bring the McNary-Haugen farm-relief bill to a vote in the Senate failed.

Creation of a new civilian insular bureau to administer territories was proposed by Senator Willis of Ohio.

passed by both houses and are now being considered by conference committees, which are endeavoring to reconcile the differences between the two houses.

The seventh appropriation bill on the floor, that providing for the needs of the Departments of State, Justice, Commerce and Labor, having passed the House and run the gauntlet of the Senate committee, was reported yesterday to the Senate.

The War Department appropriation bill likewise having passed the House, it will be sent to the Senate tomorrow.

The House Appropriations Committee has reported two others, namely, the District of Columbia and the legislative establishment appropriation bills. The former is being considered by the House today and provisionally will be passed tomorrow. Immediately thereafter the House will take up the legislative establishment bill, about which there is some controversy.

Other bills, however, are being held up by the House. The McNary-Haugen farm-relief bill, which is the subject of the McNary-Haugen farm-relief bill, is being held up by the House.

Other bills, however, are being held up by the House. The McNary-Haugen farm-relief bill, which is the subject of the McNary-Haugen farm-relief bill, is being held up by the House.

## FARM BILL WAY CLEAR

### Senate Vote in Week Foreseen

Sponsors, Aided by Banking Act Allies, Obtain Privileged Status

Use of Cloture Threatened if McNary's Foes Try Filibuster

By ELLIS D. PALMER

WASHINGTON, Feb. 3. (AP)—By a coalition between supporters of the McNary-Haugen farm-relief bill and farm relief legislation, the McNary-Haugen farm-relief bill assumed a commanding position in the Senate today, with prospects of a final vote within a week.

Sponsors of the measure which would levy an equalization fee on basic farm products predicted that it will pass both the Senate and House within a week.

Defenses of the measure, however, are being held up by the House. The McNary-Haugen farm-relief bill, which is the subject of the McNary-Haugen farm-relief bill, is being held up by the House.

## ARKANSAS FLOODS RECEDE

Thousands Homeless and Suffering Over Huge Area as Rivers Calm and Sunshine Cheers Workers

COTTON PLANT (Ark.) Feb. 3. (AP)—Five thousand persons have been affected by floods of the White and Cache rivers, and 200,000 acres have been inundated. Tonight the rivers were reported receding after the first day of sunshine in two weeks.

The floods cover a triangular area three weeks. It is believed. A community kitchen has been set up to serve them.

GUARDSMEN GIVE HELP IN FIXING LEVERS

MEMPHIS (Tenn.) Feb. 3. (AP)—Rescue work in the flooded areas of Arkansas went forward today while Army workers completed the listing of refugees and supplied individual wants.

No lives have been lost, sickness among the crowded refugees is negligible, and loss of live stock is small, rescue and relief agencies announced.

The Red Cross workers regard as possibly the chief loss from the flood the probability of the loss of the families of the refugees who are being housed in the camps.

Refugees who at first were quartered in the Courthouse and other public buildings tonight had been housed in the private homes of the city. They were in or about Cotton Plant. They will not be able to return to their farms and homes for some time.

They are trying to pull the thousands of the farm bill out of the mire. The McNary-Haugen farm-relief bill, which is the subject of the McNary-Haugen farm-relief bill, is being held up by the House.

## FORD GENIUS EULOGIZED

Expert Calls It Real Asset

Value of Stock in 1913 Put at \$10,200 a Share Due to That Consideration

Speculation Rife on Actual Wealth of Manufacturer in Terms of Billions

By ELLIS D. PALMER

WASHINGTON, Feb. 3. (Reuter)—The Ford Motor Company, one of the most complete and technical experts testimony, most of which was unintelligible to the average layman, several important facts were developed at today's hearing on the appeal of the former minority stockholders of the Ford Motor Company against an extra income-tax assessment of \$10,200 a share.

These points, some of which may have an important bearing on the decision to be rendered by the Board of Tax Appeals, were brought out during the testimony of Paul Clay, vice-president of Moody Investors Service of New York City, who was called as a witness for the plaintiffs.

Mr. Clay, who is regarded as one of the foremost economists of the country, testified that the Ford company's working capital was \$10,200 a share in 1913, when the total aggregate working capital of the United States Steel Corporation and nineteen other leading American industrial and railroad companies, he said the working capital of the Ford company on that date was about \$10,000,000, while that of the other companies was set at about \$100,000,000.

MARKET FOR GENIUS

A few moments later he stated that in the present-day financial genius has a definite market value on Wall Street, that it can be placed on balance sheet and that genius and ability to use them are important intangible assets that often determine the value of the company. He said that this especially is true of the Ford company.

"Have you formed an opinion as to the value of the Ford Motor Company as of March 1, 1913?" Mr. Clay was asked shortly after being sworn.

Mr. Clay answered by stating he considered the value of the Ford stock at that time was \$10,200 a share. This was a point for the plaintiffs because the 1913 value of the stock in the case of the tax appeal. Back in 1913, when the minority stockholders left the company, the government set the price of the stock at \$10,200 a share, as of March 1, 1913. These were paid on that basis but now the government has requested the case be set at \$10,200 a share.

Mr. Clay testified that the actual value of the stock in 1913 was \$2500 a share.

Examined by John W. Davis, former Democratic Presidential candidate, and counsel for certain of the plaintiffs, Mr. Clay said he had reached his opinion, which coincides closely with the government's first figure, by considering the financial strength, unlied orders, dividends, undivided surplus and management.

MOST EFFICIENT

"I will say," he remarked with what sounded like awe in his voice, "that the Ford management was the most efficient and efficient that I have ever observed. This company's performance exceeded anything I have ever seen in the industrial world."

Mr. Clay testified that Mr. Ford's

Justice, in summing up, pointed out that it might be said that Vincent Gladstone could have taken criminal proceedings in a libel action against the plaintiff introduced in Wright's book, because of defamation of the dead. But English law is not clear on this point. He cited Lord Chief Justice Coleridge's pronouncement that "There is no instance of a libel action brought by a representative of a deceased person, but that if ever such libel arose, it must stand on its own footing."

After stating that, Mr. Wright's allegation as "rubbish," the justice concluded: "Can you have any doubt that the plaintiff introduced this passage at the last moment to pandering to the vicious taste of the public, who love any scandal, expecting that it would further the sale of his book?"

After the verdict had been rendered, Vincent Gladstone, in a brief statement, said: "I cannot say much more than that it is quite all right now."

San Francisco Church to Cost Four Millions

SAN FRANCISCO, Feb. 3. (AP)—San Francisco's greatest church edifice, the Episcopal Cathedral, is soon to take form, the designers of the annual diocesan convention of that church were advised today.

The cathedral, when completed, will have cost \$4,000,000.

The report of the building committee, submitted to the convention today, showed that there is \$500,000 available for the building of the first unit, which will be used as a chapel.

The completed cathedral will be surrounded by a tall spiral and two cathedral towers. The crypts already have been completed and services are being held there.

The convention adjourned today.

FLATIRON BUILDING NOTHING TO JEHU

NEW YORK, Feb. 3. (AP)—Fame is setting. A visitor to New York halted the taxi and asked to be taken to the Flatiron Building—a few years ago the outstanding architectural feature in Manhattan. "E. O." said the Jehu, proper Broadway, "but where is it dump?"

## MRS. ORMISTON AT BAY CITY

Will Arrive Here Saturday from Australia and Radio Man for Divorce

SAN FRANCISCO, Feb. 3. (Reuter)—Mrs. Ruth Peters Ormiston, of Kansas City, a central figure in the Alvin Karpis case, arrived here today aboard the steamship Sierra from Sydney, Australia.

She is the wife of a wealthy ice-cream manufacturer, though besieged by a throng of would-be interviewers, she refused comment at length on divorce proceedings which she said will be filed in California.

Mrs. Ormiston announced she would arrive in Los Angeles Saturday, and immediately seek a conference with her attorneys before leaving a public statement. Her views were succinctly summed up in a few words.

"Am I going to divorce my husband?" she asked. "I am not sure. I am going to see about it. I will have for Los Angeles at once if I can. The sentence was left dangling in the air and so were the would-be interviewers. Decidedly, that was the end of the matter."

Mrs. Ormiston was aware that in Pasadena, where she is a resident, she is the subject of a public scandal. She is the wife of a wealthy ice-cream manufacturer, though besieged by a throng of would-be interviewers, she refused comment at length on divorce proceedings which she said will be filed in California.

# NAMES ASKED IN MEXICO OIL ROW

Senate Seeks Information Regarding Americans

Kellogg Urged to Give List of Concession Owners

Granting of Writ Continued by Vera Cruz Court

WASHINGTON, Feb. 3. (P)—Secretary Kellogg was called upon today by the Senate to give it the names of Americans and American corporations owning or claiming lands or oil concessions in Mexico.

A resolution, by Senator Norris, Republican, Nebraska, asking the information was approved without a record vote after the temporary was "If compatible with public interest" had been added at the request of Senator Curtis, Kansas, the Republican leader.

The Secretary also is asked to name individuals and corporations who have accepted the Mexican oil regulations and those who have refused.

## COURT CONTINUES GRANTING OF AMPARO

TAMPICO (Mex.) Feb. 3. (P)—The Federal District Court at Villa Guadalupe, State of Vera Cruz, continues to grant writs of amparo suspending application of the new oil regulations. Several days ago this court granted an amparo to the Transcontinental Oil Company; then it denied one to the Compania Petrolera Capachina, and yesterday acted favorably on applications for amparo by the Tuxtepec Petroleum Company and the Mexican Petroleum Company.

Applications by the Atlantic Gulf and West Indies Oil Company and the Atlantic Oil Company are to be taken up next in the list awaiting decision.

The attitude of the court is well received here because it prevents idleness for thousands of Mexican workers employed in the oil fields.

## PRODUCERS REPLY TO MEXICAN STATEMENT

NEW YORK, Feb. 3. (P)—The Association of Producers of Petroleum in Mexico in a statement replying to charges of the Mexican government that some "rebellious oil companies" are making every effort to precipitate "a real conflict" in the oil zone, assert that these so-called "rebellious companies" have been producing approximately 70 per cent of all oil produced in Mexico.

The statement charges that the new Mexican law have caused cessation of work on two-thirds of the oil wells which were being drilled. It says that so-called "rebellious" companies have thus far received notice of the cancellation, by order of the Mexican government, of 279 drilling permits.

Mexican oil production, the statement continues, is almost entirely confined to properties acquired before the new constitution went into effect in 1917 and most of these properties were owned by the so-called "rebellious" companies.

Figures for the decline of Mexican oil production in the last five years are given in the statement as follows: 185,000,000 barrels in 1922, 150,000,000 in 1923, 142,000,000 in 1924, 118,000,000 in 1925 and about 90,000,000 in 1926.

Figures for Mexican government revenues from petroleum export and production taxes for the same years are given as follows in United States currency: \$48,000,000, \$30,000,000, \$27,000,000, \$21,000,000 and \$18,000,000.

"Similarly," the statement adds, "the number of employees in the Mexican petroleum industry has declined from approximately 60,000 to substantially less than half that number."

# Jury Hears of Whisky Served 'Bathtub' Party

ATLANTA (Ga.) Feb. 3. (P)—Admission that "one gallon of whisky was served fifty guests" was made in a written statement today by Al H. Bailey, vice-president and member of the entertainment committee, after he had appeared before the Fulton county grand jury which is investigating the Co-operative Club's party of January 17.

While the county grand jury continued its investigation today, W. T. Day, assistant prohibition commissioner, said Federal officials would conduct an inquiry of their own into charges that whisky was served at the party, at which a small negro girl in a "bathtub" act was the closing scene.

Morton Sanford, assistant manager of the hotel where the gathering was held, said that a lieutenant of police, detailed by Chief James L. Beavers, had given the party "a clean bill of health."

# Mexico Issues New Rules for Private Mass

MEXICO CITY, Feb. 3. (P)—Atty.-Gen. Ramon Ortega today issued formal orders stating that Catholic priests may conduct religious services in chapels of private residences only when the priests so officiating have accepted the government's religious regulations which include the requirement that they register with the municipal authorities. Even then services may be only for members of the family and their servants.

Registration with the municipal authorities is one of the chief points of controversy in the present religious situation in Mexico, the position taken by the church being that to do so would be the acceptance of the Mexican government rather than the Pope as the highest authority in matters which exclusively come under the jurisdiction of the church.

# IMPORT BAN LIFTED ON ARGENTINE GRAPES

WASHINGTON, Feb. 3. (P)—The prohibition against importation of grapes from Argentina was lifted today by the Department of Agriculture pending a further report on the fruit fly situation in Argentina. Max Klatzky, Jr., chief plant quarantine inspector at the port of Philadelphia, is en route to Argentina to make a survey. The whole situation will be reconsidered in the light of his report.

# FIGHT OVER RADIO BILL DEVELOPS

Senate Backers of Measure Show Strength Against Side-tracking Efforts

WASHINGTON, Feb. 3. (P)—Proponents of the compromise radio bill showed their strength today in the Senate, but a vote on approval of the conference report went over until tomorrow after a fight developed late in the day.

An attempt by Senator Howell, Republican of Nebraska, to side-track the conference report, already agreed to by the House, on a point of order that it contained new legislation, was overruled by Vice-President Davis. Senator Dill, Democrat, of Washington, author of the original Senate measure, led the fight for adoption of the conference report and he was joined by Senator Watson, Republican of Indiana, and members of both parties joined in tabling the Howell appeal.

Senators Howell and Borah, Republican of Idaho, contended the compromise bill did not assert definitely the government's right in the air and would not prevent broadcasters from acquiring vested rights. This was denied by Senator Dill.

# PAIR FLEES AS KIDNAP PLOT FAILS

Banker Carried Away by Bandits After Robbery Attempt Gains Freedom

MANFIELD (Ark.) Feb. 3. (P)—Deceived in a bank robbery attempt and in their plot to gain ransom money after kidnapping the bank president, two men had succeeded tonight in evading pursuit in two States.

Returning today from Howe, Okla., just across the Arkansas line, C. G. Graves, president of the National Bank of Manfield, told how the men sought to force him to open the vault of the institution last night and then took him and his brother-in-law, Frank Butler, away in an automobile truck in an effort to extort a ransom.

Mr. Butler of Oklahoma City, who was visiting in the Graves home, was dropped from the car near Manfield. The kidnappers demanded that he bring \$50,000 for his brother-in-law's release.

The pair stopped in a deserted farmhouse near Howe, bound and gagged Mr. Graves and left him. About midnight the banker released himself and telephoned Manfield friends. A town officer and B. W. Barker, cashier of the Manfield bank, hastened to the Oklahoma town and brought Mr. Graves back to Manfield.

The banker apparently had received no serious hurt. Pretending at first that they had come to serve a summons, the men drew pistols and threatened their victims while they demanded that they be taken to the bank and asked to enter the vault.

The gunmen were convinced by the bank president that they were unable to gain entrance to the vault because of a time lock. Mr. Graves and his relative were then kidnapped.

# LIFE'S HOPE COMES TRUE FOR HEROINE

Canadian Girl Awarded Cash for College as Result of Rescuing Swimmer

VANCOUVER (B. C.) Feb. 3. (Exclusive)—Dreams came true today for Dorothy P. Brown, 18-year-old heroine recently awarded a Carnegie hero fund commission bronze medal for saving Mrs. Ida McNeil of Calgary, Alta., from drowning in Shuswap Lake, B. C. A letter from the commission informed her this morning that they have awarded her \$1000 to be expended on education during two years, and requested her to state her wishes.

Dorothy has long held secret ambitions for a university course, followed by training in public library work. Hitherto this ambition to her seemed more than she had a right to expect.

"It seems too good to be true, just like a nice dream," she said today. Dorothy rescued Mrs. McNeil when the latter got into deep water and sank twice. The woman hampered her movements by clinging with arms round her neck, but the young girl got her to shore and safety.

# Churches Plan Daily Program for Radio Fans

NEW YORK, Feb. 3. (P)—A program of religious broadcasting, larger in scope than anything previously attempted here, soon will be instituted as a weekly feature. It was announced today by Dr. William B. Miller, secretary of the Greater New York Federation of Churches.

Two programs on Sunday and eight others during the week is the plan. The services will be broadcast through co-operation of the National Broadcasting Company and will be carried on the hook-up of the National Association of Broadcasters.

"The aim is to send out a helpful, noncontroversial message and sacred music to an audience made up of men and women of all religious faiths," Dr. Miller said.

# DEATH FOR BANDITS

Four of Russian Strangler Gang to Pay Supreme Penalty

MOSCOW, Feb. 3. (P)—Four bandits, members of a gang known as the "Strangers' Corps" with a record of eighteen murders in and around Moscow, were sentenced to death today. Five others, including four women accomplices, were given ten years' imprisonment.

In many of the cases the only motive was to obtain the victims' clothing. The most recent crime in the series was the murder of a girl 13 years of age on her way to church. "We killed her for her white dress and shoes," the leader's wife testified.

# CRISIS NEAR FOR MARX COALITION

Political Life of New Berlin Cabinet in Balance

Stresemann Foreign Policy Will be Continued

Nationalist Leader Attacks Chancellor's Statements

BERLIN, Feb. 3. (P)—The political life of the new Marx bourgeois coalition hung in the balance tonight, after the chancellor had given to the Reichstag a declaration of the government's policies at home and abroad.

Already there are discernible forebodings of acrimonious debate between the Monarchist Right and the Republican Left, with the government holding the balance.

The ministerial declaration was devoid of anything startling. It appears that the Marx government will continue the foreign policy of coalition inaugurated by Foreign Minister Stresemann, which policy brought him a share in the Nobel peace prize.

## REORGANIZING ARMY

The Reichwehr—the German army—will be reorganized and reformed. This pledge appears to have been made by the new coalition government which brought about the fall of the previous Marx ministry.

Referring to the new pronouncement in the Chancellor's statement was the firm pledge to uphold the Weimar constitution, which safeguards the German Republic, coupled with a stern warning that any attempt by forcible or illegal means to obstruct reform would be regarded as treason.

Count Westarp, Nationalist leader, attacked the declaration of policy of Chancellor Marx as soon as it was promulgated.

Referring to the Chancellor's statement that the government pledged faith to the constitution of the German Republic as adopted at Weimar, Count Westarp declared the Nationalists still hold to their monarchical viewpoint.

## MAINTAINING PRINCIPLES

They have not given up and do not intend to surrender any of their principles or ultimate aims. All they agreed to in entering the Cabinet were the conditions necessary for a practical political co-operative effort.

This party would see, he added, that vengeance for the nation's past was inculcated in the school children.

"The Nationalists are supporting the Locarno peace policy, only because Germany remains forcibly disarmed," he added.

Count Westarp's statements will be used by the left parties tomorrow and Saturday as a basis for renewed attacks on the sincerity of Chancellor Marx's new ministry.

Already three motions of non-confidence offered by the Democrats, Socialists, and Communists respectively are confronting the government, which, however, according to present indications, is expected to survive the onslaught by a small majority.

The government parties also were expected to vote to support the confidence, so that the Reichstag within the next few days will have to decide whether to align itself with the government or precipitate a new ministerial crisis.

# Mexicans Take Yaqui Indian Strongholds

WOGALES (Ariz.) Feb. 3. (P)—The Herald says an official communiqué from Gen. Francisco Manzan, in charge of Federal troops warring against the rebellious Yaqui Indians, recounts that the Indians' mountain stronghold, Sierra de Buenavista, and another retreat, Bacatitlan, had been stormed and taken Tuesday.

Four thousand soldiers are understood to have taken part in the attack under Gen. Rios Zertuche.

# RECORD NUMBER ON SAN QUENTIN ROLLS

SAN FRANCISCO, Feb. 3. (Exclusive)—With 3608 prisoners on the rolls San Quentin prison has the largest number of inmates ever held in that penitentiary at one time during seventy-six years of existence. Of the total 3585 are behind the walls and 144 in three road camps. The State prison of New Hampshire has only 1000 inmates, less than the number of inmates serving time in San Quentin. Illinois has 3047, or 1981 less than San Quentin.

# SOCIALISTS CLASH IN VIENNA WITH STUDENTS

VIENNA, Feb. 3. (P)—Serious fighting which resulted in a number of casualties and many arrests broke out in front of the Parliament buildings and the City Hall today between a group of Socialists and Nationalist university students. The Socialists charged that a student had killed a workman. In addition, the Socialists protested against maintenance of a Nationalist shooting gallery in a university building, where students practiced shooting, and against the asserted unequal treatment of poorer students.

And up in this gigantic offer

# A Personal Word From "Buddy"

Gentlemen:—I have "thrown my hat in the ring." I have peeled off my coat, rolled up my sleeves and I have prepared to fight. I HAVE BROUGHT THE PRICE OF TAILOR-MADE CLOTHING DOWN TO WHERE THEY CAN BE WORN BY EVERYBODY, AND I INTEND TO KEEP THEM THERE. I absolutely defy any competitive organization to meet my standard of value and workmanship. They say that "the proof of the pudding is in the eating," and my business has increased 500 per cent in the past two months. Great men, like famous painters, imitators, but the imitation falls short by comparison. GENTLEMEN, I GIVE YOU TWO SUITS AT THE PRICE OF ONE, and as positive proof the above reward is offered to verify this assertion. My name has been built up on a reputation for HONESTY, INTEGRITY and RELIABILITY. MY FAIR and SQUARE methods of doing business are known throughout the entire country. For this reason I entreat you to lend me your eyes for a brief moment and read every word of this editorial, and be thoroughly convinced that this is beyond all reason of a doubt the outstanding and most GIGANTIC WOOLEN SACRIFICE ever made. You absolutely get an extra SUIT OR O'COAT WITHOUT ANY CHARGE. I will deem it a pleasure to greet you personally and show you an array of the most beautiful fabrics ever assembled. The fit and finish of your garments are absolutely guaranteed. The finest of linings and trimmings are used in the construction of your clothes. MY FUTURE SUCCESS depends wholly on YOUR FUTURE BUSINESS, and that can only be forthcoming if I make you a SATISFIED CUSTOMER.

# "A WORD TO THE WISE"

Let it be thoroughly understood that I AM NOT connected with any other tailoring establishment in the city. I have ONE NAME and ONE STORE, and I am justly proud of each. I run my business under my own name. There is nothing fictitious inside or outside of my establishment. I am not sailing under false colors. You who are CLEAR-MINDED will readily perceive that there are "few things" "between these lines" for the "thinker." Gentlemen—there is no saturation price for HONEST VALUE.

Sincerely, "BUD" COLMAN

## BOXERS ADOPT LONGER SEASON

Season Driven Up to Call Week More of Play

National Races to End Up on October 2

League Pennant Chases Will Start April 12

NEW YORK, Feb. 3. (P)—The Major League baseball season will open on April 12, and close on Sunday, October 2, one week later than last year, as a result of agreement reached today upon completion of the work of the National League.

The schedule, drafted after a conference lasting three and a half days, are subject to the approval of the two leagues at their midwinter meetings in New York.

It was expected to be merely a last closing principle was laid by the club owners last week and also has the in-approval of Commissioner Landis, who was expected to be in New York at Philadelphia.

The American League's opening season was announced as follows by John A. Heydler, Brooklyn manager, at Cleveland, Ohio, at Cincinnati and St. Louis.

The American League's opening season will be Philadelphia at New York, Boston at St. Louis, Detroit at Cleveland, Chicago at St. Louis, and Pittsburgh and Cincinnati at St. Louis.

## HARRY BEUM IS GIVEN BEATING

Tom Elliott of Hollywood Trims Favorite

Martin Malone Cops Honors in 160-Pound Class

Huerta Evans Gains Crown Via Knockout

COAST CHAMPIONS

112-pound class—Mannet Trivia, Hollywood A.C.

115-pound class—Huerta Evans, Los Angeles A.C.

125-pound class—Francis Burke, Olympic Club, San Francisco.

147-pound class—Charles Anderson, Olympic Club, San Francisco.

160-pound class—Martin Malone, Los Angeles A.C.

175-pound class—Milton Webster, U.S.A. Wrestling.

Heavyweight class—Tom Elliott, Hollywood A.C.

Tom Elliott, a tall, rangy youngster wearing the Hollywood Athletic Club colors, totally paralyzed the 4000 cash customers at the Olympic Auditorium last night, when he defeated Harry Beum of the Los Angeles Athletic Club in three rounds to win the Pacific Coast amateur heavyweight championship.

Elliott, who appeared to be a lamb being led to slaughter, gave the well-known Los Angeles champion as a beating as he has ever taken in his long career in the last two rounds.

Beum landed a couple of his famous rights in the first round which made the Hollywood boxer a bit wary, but he came back in the second and third rounds with a snaky left hook that had Beum bleeding about the mouth and nose.

In the final round Beum was groggy and Elliott kept him tied up, taking but four hard blows during the bout.

The Los Angeles Athletic Club team won top honors with three championships: the Hollywood Athletic Club and San Francisco Olympic Club won two apiece, and the light-heavyweight title was won by the U.S.A. Wrestling.

EVANS KAYO VICTOR

Huerta Evans, Los Angeles Athletic Club champ, won the bantamweight title in two rounds of fighting when he knocked Dominic Distoreo knocking with a right to the solar plexus in the second round. The blow knocked Distoreo flat and he had to be carried from the ring.

Francis Burke of the San Francisco Olympic Club pulled a surprise when he defeated Mike Waters of Los Angeles Athletic Club in a close fight for the lightweight championship.

Mannet Trivia of the Hollywood Athletic Club team was the first to carry off a championship. He won the 112-pound title when Herman Burrellough of the Los Angeles Athletic Club was unable to come out for the third round after taking a wallop in the first two rounds.

Trivia was awarded a technical knockout decision when Burrellough's seconds declared him unable to continue.

Charles Anderson of the San Francisco Olympic Club lifted the welterweight title by defeating Paul Brown, undefeated, in a close battle. The Bay City boxer won the first two rounds, but stepped into a fast one in the final round and was dropped for a count. He came back fast, however, and landed several hard blows on Brown's anatomy before the bell sounded to win the decision.

GOLDEN WINS THREE

After putting up a fast pair of fights during the opening bouts, Ben Golden of the Los Angeles Athletic Club stopped Joe Sheridan of the San Francisco Olympic Club in two rounds. Golden was too rugged for the visitor and easily warded off his rushing tactics. Golden scored a clean knock-out in the first round for a nine count and had Sheridan off of his feet in the second round when the fight was stopped. They fought at 126 pounds.

Martin Malone won his championship easily by defeating his own teammate, Harold Kaahare of the Los Angeles Athletic Club. The boys seemed to know each other, and by his fighting Kaahare evidently realized that Malone had the bout sewed up. Malone won the welter championship last year, but recently graduated to the

## STARS SELL LEFTY O'DOUL TO SAN FRANCISCO SEALS

Slugging Outfielder is Purchased for \$7500; Lane to Get Hurler and Flychaser From Majors

BY BOB RAY

When Mr. H. William Lane, president of the Hollywood Stars, promised the fans a shake-up and a lot of new faces on his ball club when the start of the 1927 Pacific Coast League season rolled around he evidently meant exactly what he said. H. William got rid of another veteran Salt Lake-Hollywood player yesterday when he sold Frank "Lefty" O'Doul, slugging right-fielder, to the San Francisco Seals for a price announced as \$7500, which is a goodly sum in any kind of money, including the Scandinavian.

O'Doul, who has had three chances in major league company since he broke into the national pastime at San Francisco back in 1918, was the leading Hollywood slugger last season, but he got into the bad graces with Lane because of his "bolshie" tactics. However, Lefty is a good ball player, a better batter than average, and he should pull out a lot of hits for the Seals during the coming race, especially in Recreation Park, where the short right-field fence is perfectly suited to his left-handed twists.

The departure of O'Doul leaves Hollywood only three experienced outfielders, Lou Sheshan, Johnny Frederick and Jack Anderson, so Lane evidently knows that he is going to land a flychaser from the majors before the Coast League race opens.

TWO PLAYERS COMING

Lane states that the Stars will announce the acquisition of a

## PADDOCK RUNS TOMORROW

Charley Will Assault 250-Meter Record on Tiger Track When L.A.A.C. and Oxy Clash

Charley Paddock, holder of numerous sprint and lecturing records, will scatter his spikes around Occidental's track tomorrow afternoon in an effort to find whether or not he has retained his youthful vim and vigor.

Paddock's star athlete has chosen the 250-meter record as a proper and fitting mark to shatter, before he goes after Roland Locke's 220-yard record of 30.5 seconds set last year. Paddock's effort will feature the dual track races scheduled between the Los Angeles Athletic Club and Occidental cinderpath squads.

Coach Joe Pipal is not exactly shedding tears over the meet, but he does expect to see his team badly beaten. Ted Brodhead's torn leg muscle, which will keep him out of competition for the next month, has not added to the Tiger's chances. As the Tiger star was expected to pick up a few points in the sprint.

Capt. Irving Tanner, hurdler and jump man, is entered in both hurdle events, the high jump and broad jump, and is expected to place in all four. Oxy has two

## TROJAN FIVE PLAYS CARDS

Stanford Quintet None Too Sure of Winning Two Crucial Games Tonight and Tomorrow

STANFORD UNIVERSITY, Feb. 3.—Stanford Cards are ready for U.S.C. and the two games tomorrow and Saturday here which will settle the conference basketball argument between the two universities.

With one victory to their credit—their credit, the Reds will be favored slightly.

In two games with the University of Nevada Stanford was disappointing. Nevada failed to show anything of the form expected and the Cards dropped to 11-10.

Coach Hunt has about ten players of almost equal ability, but has among them not a single outstanding star. Nor, for that matter, one who stands materially above the average of his own squad.

High scorer has been Byron Bryant, forward, who has accumulated a total of fifty-four points in games to date. McCandless, a sub, is next with forty.

Stanford's probable line-up includes Vincent and Anderson at guard, Jayed at center and Bryant at forward. At the other forward, Christ, David or McCandless may play.

Neither the present Stanford captain, David, nor the ex-captain, Price, has yet hit his stride, and so far neither is listed with the regular line-up.

Cards have been faulty in following their own throes at the basket, Louis Vincent has been

## HUBBARD, POLE VAULT STAR, ENTERS U.S.C.; JUMPS TODAY

Dean Cromwell, Trojan track coach, could have been "ruled out" yesterday for conduct unbecoming to an officer and a gentleman.

The eminent citizen walked authority training quarters yesterday morning to find Bill Hubbard hopefully waiting to sign up for freshman track.

Hubbard's appearance was the signal for several loud, long and lasting whoops of joy from Cromwell, for, if you don't know it already, Hubbard is another of those clever pole vaulters that Southern California in general, and

San Diego High School in particular, is continually producing.

Hubbard sparked promoters.

## WOMAN TRIES CHANNEL SWIM TONIGHT; AFTER NEW RECORD

Considerably emboldened by Henry Sullivan's successful channel dash, Mrs. Myrtle Huddleston, one of the contenders in the recent Catalina ocean derby, plan tonight to attempt to be the first woman to conquer the waves and at the same time demolish George Young's record.

Mrs. Huddleston, who is a mother of a 13-year-old boy, plans to leave from the lighthouse on the island around midnight tonight and hopes to land on the mainland sometime before midnight tomorrow night.

# King Tut Faces Doc Snell in Main Bout at Hollywood Stadium Tonight

## TWO BATTLERS SET FOR GONG

**Junior 'Lightweights' Ready for Tough Scrap**  
**Fans Pick Tut to Win Over Tacoma Dentist**  
**Newcomer Meets Billy Hart in Semi-Final**

King Tut and Doc Snell are all set to meet in the main event of the night at the Hollywood American Legion stadium tonight. Tut rules a favorite and some pick him to win by a knockout.

The fighters are in good shape and have made 150 pounds without any difficulty. They will weigh in at 150 pounds at the Hollywood American Legion stadium tonight. Tut rules a favorite and some pick him to win by a knockout.

**JUDSON WORKS FOR MAT GO**

**Jerry The Greek Training Harvard Wrestling Coach for Match With Tommy Drake Wednesday**

Frank Judson, Harvard wrestling coach, has started training at the Manhattan gymnasium under the direction of Jerry the Greek. Judson yesterday imparted some interesting information regarding the sport of wrestling to a group of students at the Manhattan gymnasium.

## RABBIT PUNCHES

**NOT DEAD BY A LONG SHOT**  
**It's King Tut but he's very much alive as Doc Snell will find out at the Hollywood Legion tonight. The boys box the main event of ten rounds.**

A victory over Billy Alger the other night has made it a bit tough on local matchmakers to dig up opponents for the "Wildcat." At his new weight, King Tut is a bit heavier than he was a year ago at the lightweight mark, and he punches a whole lot harder than he did. His next foe may be Johnny Adams, although in some quarters it is felt that Johnny would be too easy for Ace. However, you can't entirely forget the victory he won over Hudkins in the Olympic ring eight months ago.

## JUNIOR TENNIS STARS FEATURE

**Women's Doubles Heads Bill at Griffith Park**  
**Miss Williams to Appear in Singles Matches**

Now that Big Bill Tilden, former national champion, is no longer numbered among those competing in the Los Angeles city amateur championships, the local tennis stars will be given an opportunity to strut their wares when play is resumed tomorrow morning on the Griffith Park Playground courts.

## OBSERVATIONS

**BY THE INNOCENT BYSTANDER, BILL HENRY**

THE first woman who swims the Catalina Channel is going to clean up more money than the winner of Bill Wrigley's personally conducted sweepstakes of recent memory. It is pretty well certain right now that George Young's chances of doing very much are gone. He won't do any too well in the first place and his mother's well-meant interference has just about killed any further chances of doing up. But if some girl makes the swim and then gets a really smart manager she'll do it. She'll make more money out of her feat than all of the half a dozen or more men who preceded her, were able to do.

## TIGERS SET FOR BRUIN CAGE TILT

**Rival Basketball Tangle Tomorrow at Hollywood Gym**

With Capt. Billy Miskin finally hitting his stride and Neil Archer playing a brilliant game at forward, Coach Eddie Klenhous feels a little bit better about the Occidental and Bruin basketball game slated for tomorrow night at the Hollywood High School gym.

## TROJAN FIVE PLAYS CARDS

(Continued from First Page)  
about the only man to follow, and, as a running guard, he is the man least expected to do so. At their own backboard the Reds better, Vince and Anderson usually bring on hard to take the ball.

## THOMPSON TO BOX BAY CITY MITTMAN

SAN FRANCISCO, Feb. 3. (AP)—Tommy Cello of San Francisco and Jack Thompson, negro lightweight of Los Angeles, have been matched for a ten-round bout at Dreamland rink, the 15th inst. It is expected to draw a capacity house as Cello is a favorite here while Thompson has won all of his fights in the city. The match was announced several weeks ago but canceled when the negro was taken ill.

### Billy Kroydon's Golf Hints

Easy Does It. The midiron is an easy club to play—so play it easily. It will give you a lot of distance for a little power.

**Kroydon Hardened Steel Midiron**

This midiron, like all Kroydon irons, is made of steel—not soft iron—and hardened like a fine tool. Being 4 to 5 times harder than ordinary irons, it will not nick or dent, and extreme hardness and endurance make possible a similar shot and a low curve of gravity. Watch the only man who "pick-up" the ball, and great power where you need it. Just try the "mid" and balance of the iron to your own hands, and note the sense of both accuracy and power it gives you.

**Midiron Model J-4**

For Suburban Cruising—The Promenade Deck Trolley

## My Husband Says

THAT Thackeray certainly immortalized Becky Sharp and Bouillabaisse. And he says that every man who wears a low collar, and eats with his pen, wants to try that famous stew, once.

It's on the menu at Le Vieux Fromage, a little cafe in town where we sometimes dine.

But the waiter says it doesn't pay to serve less than ten orders at once; and you have to order a week in advance, because it takes so long to collect the things that are in it. And he says it is hard to find ten men sitting in a row who know what Bouillabaisse is.

And it would be harder to get them to eat it if they did. So he says there is really very little call for it.

But one night when we were in Marseilles, my husband said he was filled with the spirit of adventure, only. And he was hungry. So we motored to a fascinating pink cafe, set high on a lovely cream-colored ledge, overlooking the beautiful blue Mediterranean.

He said he would order with the utmost care. (He used a lot of words like that when we were away.)

He put slices of bread in the

green bowl, and poured thin tomato soup over them. When the slices of bread floated, I thought they looked like great, pale rafts.

But when he put the other things in, they sank again.

When he raised the cover of the yellow bowl, where the Bouillabaisse was, I turned away and looked out on the Mediterranean, and I thought it was perfectly stunning. There were pieces of human huddle, and garlic, and fresh haddock and lovely sprays of herbs, and the cutest little strips of smoked herring, and lobster, and everything. It was tinted in the most heavenly shade with saffron, and garnished with two red peppers, and the shell of the lobster, which wasn't as red as the ones at home.

He was awfully pale after dinner, and swore enthusiastically at the taxi man, who seemed ever so pleased.

I wanted to make some for him after we came home, but he said: "My God! Have you ceased to love me?"

And I thought maybe he didn't care to have me try. So I didn't.

# KING FINDS NO ARIZONA FUND

Report Given Senate on Cameron Charges

Carries Vindication for Hayden Campaign

Further Consideration of Smith Case Delayed

WASHINGTON, Feb. 3. (AP)—Evidence taken by the Senate Campaign Funds Committee failed to support charges of Senator Cameron, Republican, Arizona, that a huge slush fund was thrown into the Senator's State to defeat him last November. Senator King, Democrat, Utah, reported today to the Senate on behalf of the committee.

"There is no evidence whatever in support of the charges that money was collected by either the copper interests or those interested in the Colorado River, or by any other interest, for the purpose of controlling or to aid in controlling the State of Arizona or its representatives in Congress," said the report.

Senator King, who conducted the inquiry single-handed, a few days prior to and after the November election, said that Senator Cameron testified but did not refer to his charges and "gave no testimony whatever in support of them. Some other conclusions in the report are:

**EVIDENCE LACKING.**  
"There is no evidence whatever which supports or tends to support the charge that any combination was formed or exists between large capitalists or any other persons or corporations for the purpose of controlling Arizona or its representatives, or for any other purpose.

"There is no evidence whatever showing or tending to show that any group existed for the purpose of controlling the Colorado River or the power and water thereof, nor any interest in the mining of copper ore on an international basis.

"There is no evidence showing or tending to show that international copper producers were interested in a protective tariff on copper so that any copper interests were in any manner interested in election in Arizona, or of any persons who were candidates in the primary or general election.

"For there any evidence whatever that there is a combination entered into by any financial groups to control election of candidates to Congress or to carry out any program or policy for any purpose.

**HAYDEN VINDICATED.**  
"There is no evidence showing or tending to show that any organization effected during the primary campaign was continued into the general election or that any funds contributed to any organization or campaign during the primary campaign were carried over to or were used in the general election campaign.

"There is no evidence proving or tending to prove that the asserted combination referred to in Senator Cameron's charges, or any combination, sought the nomination of Carl Hayden as United States Senator or contributed in any way to his nomination or election or that during the primary or general election the asserted combination or any combination expended large sums or any sum of money for newspaper advertising or for paying the field workers.

# NOSE CUT OFF IN JEALOUSY

Plance Admits Act to Stop Wife-to-Be from Filming

STETIN (Germany) Feb. 3. (AP)—After cutting off the tip of his sweetheart's nose "to cure her of her invertebrate habit of filming in public," Martin Richter, a tradesman, went contentedly to jail and is there awaiting the young woman's recovery with fond hopes of a happy reunion. Calmly he gave himself up to the police, declaring that after long reflection he had come to the conclusion that the only thing to insure his future peace of mind would be the mutilation of his fiancée's attractive features. After serving his time, he hopes to marry Pauline Zoellner and be happy.

\*\*\*\*\*  
of Carl Hayden or Lewis W. Douglas.

In the election Cameron was defeated by Hayden, a Democrat, who declared that the only thing to insure his future peace of mind would be the mutilation of his fiancée's attractive features. After serving his time, he hopes to marry Pauline Zoellner and be happy.

\*\*\*\*\*  
of Carl Hayden or Lewis W. Douglas.

# WATER PARLEY GETS APPROVAL

House Committee Favors Garner Resolution

Negotiations Not to Clash With Swing Bill

Tia Juana River Left Out of Present Plans

WASHINGTON, Feb. 3. (AP)—The Garner resolution to authorize the President to appoint commissioners to confer with Mexican officials, with a view to negotiating a treaty over "equitable use" of the lower waters of the Rio Grande and Colorado Rivers, was approved unanimously today by the House Foreign Affairs committee.

At the suggestion of Representative Swing, Republican, California, the resolution was so drafted that negotiations would not interfere with the Colorado River development proposed in the Swing-Johnson Boulder Canyon dam bill now on the House calendar.

President Coolidge yesterday endorsed the proposal to open negotiations in a letter to Congress.

On objection of Representative Garner, Democrat, Texas, author of the resolution, the committee refused to accept a proposal by Swing that the American representatives be given authority to include the Tia Juana River in the negotiations. Garner said Mexico had agreed to discuss water division on the two other rivers and that he did not believe a third river should be included without consent of the government.

Mayor John L. Bacon of San Diego, Cal., also urged the committee to include the Tia Juana River. He said the city was anxious to build a dam on the river to obtain domestic water, but this could not be done without an agreement with Mexico.

A number of committee members expressed willingness to extend the resolution to include the Tia Juana later, provided Mexico should be willing to discuss it.

**Four American Planes Arrive Safely in Lima**  
LIMA (Peru) Feb. 3. (AP)—Four airplanes of the United States Army Pan-American flight squadron, arrived here this evening.

The flyers left Lima, Peru, at 7:40 o'clock this morning for Chimbote, where they refused and continued on to Lima.

The planes making the hop are the New York, San Francisco, St. Louis and Detroit. The fifth plane, the San Antonio, was on the way when it left San Antonio, Tex., on December 31, 1926, is at Tumaco, near motor from San Francisco.

# EAST SHIES AT BOULDER PLAN

New York "Times" Editorial Sums Up Attitude

Power Aspect Chief Bar to General Approval

Urgent Flood Control Need Admitted, However

Further indication of the attitude of the public and press of the East toward pending Colorado River legislation in Congress may be gathered from an editorial in the New York Times, reprinted below. Under the caption "Boulder Dam," the New York Times editorial says:

Secretary Hoover urged prompt action on Colorado River legislation. The Swing-Johnson bill, providing for a \$128,000,000 development at Boulder Canyon, is now under discussion in the Rules Committee of the House. Mr. Hoover is careful not to commit himself to all the detailed provisions of that bill. What he is seeking is some practical compromise in the interest of a final determination of Federal policy toward the project. He believes that legislation is needed for three "imperative reasons": flood control, water supply and the protection of international rights.

It is worthy of note that Secretary Hoover does not include power development among these compelling matters. Yet it is around this phase of the undertaking that the present controversy is seething. A dam, the highest in the world, is to cost \$1,500,000. This will create a huge reservoir which will effectively and the flood menace on the lower river and provide a domestic water supply for the cities of Southern California. An "all-American" canal, replacing an old Imperial Valley at a cost of \$11,500,000. Finally, another \$11,000,000 is set aside for use, at the discretion of the Secretary of the Interior, in building hydroelectric plants capable of generating 1,000,000 horsepower. All this money and \$1,000,000 more for interest during construction, is to be advanced by the Federal government, which is expected to recover its investment out of the sale of electric current.

**DANGER ADMITTED**  
There is no doubt of the urgent need for some sort of flood control on the Colorado, especially in the Imperial valley, now straggling and harmless, now turbulent in its menace to the people of the Imperial Valley. This prosperous valley, with a population of over 60,000 people, lies in a depression 100 to 300 feet below the channel of the river, which flows along the rim of the basin. In 1905 the river broke into the valley and it took two years of heroic effort to dig it back into its channel toward the Gulf. There is an ever-present danger of a recurrence of that disaster. Also, it is said that the cities of Southern California, particularly Los Angeles, must sooner or later look for additional domestic water supply.

In the power element of the project, and if so, should the government be asked to build a dam, Mr. Leatherwood of Utah, one of the interested States, says no. "It is an attempt by the State of California to gain special privileges and advantages in the development of the greatest resource in the Southwest at the expense of other States in the Colorado River Basin," he declares in a vigorous minority report. "When the political struggle which has been thrown around this bill is lifted, it will be found that the real purpose is to plunge the Federal government into a stupendous power project." Boulder Dam has long been a political shibboleth in California.

Mr. Leatherwood holds that the so-called Topock site is as good from the point of view of flood protection, water supply and irrigation. He figures that a dam can be built there for \$18,000,000. He has a good deal of doubt as to the engineering practicability of the 160-foot Boulder Dam, and thinks the estimates of cost are too low.

**NATIONAL ISSUE**  
It is plain that there is involved here an issue of national significance. Mr. Leatherwood quotes a letter from Secretary Mellon in which he says: "I believe that, in general, sound public policy in America, wherever, as to encourage private initiative and not to have government ownership or operation of projects which can be handled by private capital under proper government regulation. It seems to me that if the project is one that can pay its own way private capital can be found. If it cannot pay its own way, then we should consider whether all taxpayers throughout the United States should be taxed for the benefit of a part of the country."

On other occasions those views have been shared by Mr. Hoover, who even in the St. Lawrence project is committed to a development of water power other than at the hands of the Federal government. Of course there are unusual conditions in this case, such as the interstate and international rights involved and the Federal government's proper interest in reclamation and flood control. The very vastness of the undertaking sets it in a class apart. But that only makes it all the more necessary that it should be soundly conceived.

**CHAUFFEUR FEE DUE**  
Renewal of License Must Be Made at Once, Motor Chief Warns  
SACRAMENTO, Feb. 3. (Reactive) Warnings were sent out today by Frank G. Shock, chief of the State Division of Motor Vehicles, to all California chauffeurs to make application immediately for renewal of their licenses. The 1926 licenses expired January 31, and a renewal fee of \$3 must be forwarded to the department.

"Under the Motor Vehicle Act," Shock said, "any person directly or indirectly receiving compensation for operating a motor vehicle is deemed a chauffeur and is required to have a license."

Shock said there are approximately 115,000 chauffeurs in California. He declares that those apply for a license should furnish the number of their 1926 badge.

**COOLIDGE AND WIFE HOSTS AT RECEPTION**  
WASHINGTON, Feb. 3. (AP)—The annual Congressional reception was held at the White House tonight. President and Mrs. Coolidge receiving about 1500 guests.

# YOU CAN HAVE HEALTH

(Opening Announcement Today.)

You are invited

To come to the opening of our new, downtown offices, today, February 4—all day or during the evening—for examination and a free demonstration of the only pliable electro-magnetic health coil invented—the

Perfectocoil

At 8 p.m. you may attend the address on Electro Magnetism and Health by the noted lecturer, Claire Charles. No charge for admittance to hear the thrilling story of how everybody can have health and strength.

Electro Magnetism—Heat—Radium—Defy Disease

The Perfectocoil is the only patented health coil without a single competitor, the only electro-magnetic coil with poles of radium ore—the only appliance containing a trinity of the greatest healing element in nature—Heat, Electro Magnetism and Radium Emanations. Perfectocoil is soft, pliable and fits comfortably any part of the body or limbs. It is directly under control of the patient having three switches right at hand.

Perfectocoil is the result of twenty years of experimenting along the lines of heat, magnetism, electricity and radioactivity. Legend Burton Robert Charles, the inventor, with other noted scientists, studied electro magnetism for the healing of disease. Burton Robert Charles thereafter invented a number of appliances which are now used in private and government hospitals. And his latest achievement is the invention of the pliable, soft Perfectocoil for home use.

What the Perfectocoil does

Magnetizes and enriches the blood. Eliminates waste diseased matter. Secretes broken down cells. Promotes normal circulation. Relieves insomnia. Gives sound sleep. Strengthens tissues and nerves. Relieves nervous strain, exhaustion. Rebuilds every cell, gland and organ. Perfectocoil is also the foremost of all rejuvenators.

Come, see and try this appliance for yourself without cost or obligation.

A licensed physician and a registered nurse will be in attendance.

Perfectocoil Sales Co.

Distributors of Perfectocoil, Electro-Magnetic and Radium Products

# WHY BE EMBARRASSED

If you are annoyed and embarrassed by hissing, pounding and gurgling plumbing—Our System of NOISELESS PLUMBING INSTALLATION will interest you. Our Engineers will be pleased to figure your plans and submit estimates.

Prudent People Prefer Pacific Pipe's Perfected Plumbing

DIRECT TO YOU

QUALITY PLUMBING & HEATING

Our New Policy

OUR new policy now affords the general public the unusual advantage of securing QUALITY PLUMBING AND HEATING at a price it will be satisfied to pay, direct from a firm that has the reputation and the resources to give an unqualified guarantee to complete the contract according to specifications.

Our Easy Payment Plan

OLD-FASHIONED or incomplete furnished bath rooms can now be modernly equipped and paid for out of incomes—a small down payment and the balance in small monthly payments. Besides the comfort and pride of having modern plumbing equipment, it is a good investment, as it adds tangible value to your home.

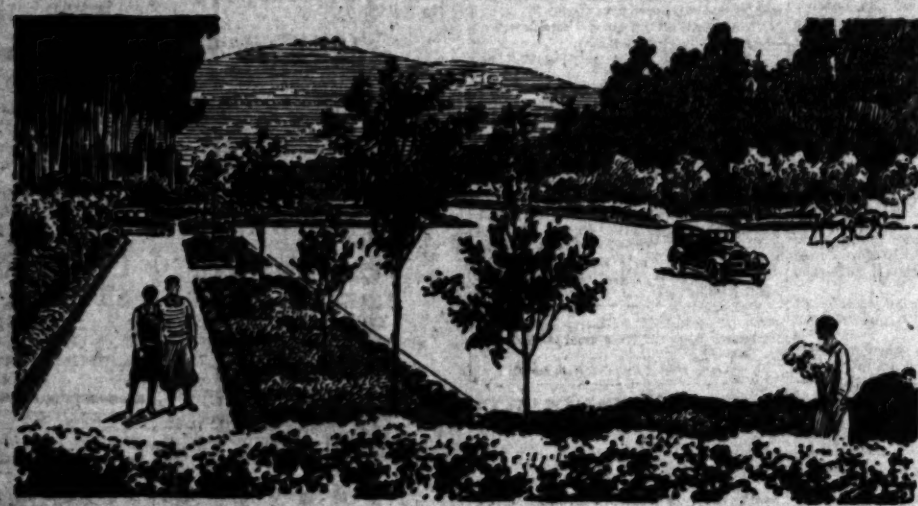

You Are Invited

YOU are cordially invited to visit our Display Rooms on Santa Fe avenue, between Seventh and Eighth streets, where we have a large exhibit of the latest designs in bathroom and other plumbing and heating specialties. A complete staff of plumbing and heating specialists are at your service.

PACIFIC PIPE & SUPPLY CO.

Plumbing and Heating Supplies

South Santa Fe Ave., bet. 7th and 8th Sts., Los Angeles

One fourth of the entire Estates for parks and playgrounds!

NEVER BEFORE in the history of community building has such generous provision been made for open spaces and for recreation. Palos Verdes Estates—distinctive among all residential suburbs, and, as you probably know, now internationally famous—has set aside more than 800 acres for the development of parks and playground areas alone, which can neither be sold nor built upon.

These park areas include the Golf Club, 213 acres; school playgrounds, 150 acres; some 4 1/2 miles of shore line park and an additional 200 acres of parkways, public gardens, gulches and bridge trails—all of which are being developed and landscaped as part of the general decorative scheme of the Project. Thus Palos Verdes can never become overbuilt nor can anything spoil its beauty. Nowhere else are living conditions quite so ideal, and nowhere else is there such guarantee against future congestion, because one acre in every four over the entire Estates is a park.

The immediate growth of the Estates is assured. The number of homes to be built during 1927 is already 150% greater than those built during 1926.

In your quest for the ideal home, you can not afford to overlook Palos Verdes Estates

### "Times" Daily Short Story

THE drug clerk looks sharply at the white face half concealed by the high-turned overcoat collar. "I would rather not supply you," he said doubtfully. "I sold you a dozen morphine tablets less than an hour ago."

The customer smiles wanly. "The fault is in your crooked streets. I didn't intend to call upon you twice, but I guess I got tangled up. Excuse

**n Santone**

**HENRY**

music in mine, if you please. It makes you dismember to forget."

Friend of Toledo, here pulls out his watch.

"I'm a son of a gun! Got an engagement for a hack ride out to San Fern Springs at eleven. Sorry you ain't going along. Good-by, Goodall of Memphis."

This Goodall's tempter deserts him. That youth, uncompelling and uncanon, takes a spell at coughing and, recovered, wanders desultorily on

as the innocent looking titration. "Bored things! but worse little, white birds they could never kill one!"

Indeed they could. Walter knew better. Nine grains of morphine would half the amount might.

Miss Rosa demands to know about Mr. Ford of Toledo, and is told, she laughs like a delighted child, "What a funny fellow!"

about your home and your sisters. Walter, I know enough about Texas and its minutiae and cowboys."

The thimble, to her, to his mood, and he lays before her the simple details of a true home; the simple facts and endearments that so fill the life of the home of the

Alice, furnishes him a theme he

A dark, expressive illustration of a man and a woman in a room, possibly a study or library, with a large, ornate desk or table in the foreground. The scene is framed by a thick, dark border.

"She is like you, Miss Rosa," he says, "maybe not quite so pretty, and good, and—"

down the street, the noise of which he neither knows nor recks. At a certain point he perceives swinging round a corner a tall, slender, young man, a noise of wind and string instruments. Two men enter from the street as he arrives, and he follows them in.

Feeling with amiable feel down the aisle contiguous to savery and discreet persons, he, at half past eight, by the sight of one of the women, a woman, alone and seated in an attitude of reflection. This young woman comes forward, and she approaches him with a smile from her brings him to a standstill, and her subsequent invitation draws him, though hesitating, to the corner of the box, a little table between them.

The young woman is well-dressed, and exhibits a beauty of a distinctly masculine and tender sort, an Eve-likeness that scarcely seems predestined to fade.

A button against the wall of the partition is frequently disturbed and the partition is frequently disturbed and the partition is frequently disturbed.

Fervent beauty would nothing of wine; two thick plaits of her blood are drawn down her cheeks, and she is a lineal descendant of the Lancelot, so the waiter brings the brew, effervescent, icy, greenish golden. The waiter brings the brew, effervescent, icy, greenish golden. The waiter brings the brew, effervescent, icy, greenish golden.

Rachel." The youngsters have exchanged a good bit of information. He calls him "Water" and he calls her "Miss."

"My weekly letter from home failed to come," he told her, "and I was pretty blue. I knew I had to be here long and I was tired of waiting. I went out and bought morphine at every drug store. Where they would sell it, I don't know. I bought a quarter grain, and was going back to my room and take them, but I met a fellow on a bridge, who had a new idea."

Goodall flips a little pasteboard box upon the table, "I put 'em all together."

Miss Rosa, being a woman, must raise the lid, and gave a slight shiver

to dwell upon.

"She is like you, Miss Rosa," he says, "maybe not quite so pretty, but just as good."

"There! Water," says Miss Rosa sharply, "now talk about something else."

"I don't know why it is," says Goodall of Memphis, "but I don't feel as bad as I did. An hour ago I was as bad as you are now."

"Miss Rosa, I'd like so much to live."

"Talk of death when the world is so beautiful!" says Miss Rosa, laying her hand on his arm.

"I don't want to die," says Miss Rosa, "I want to please me, Walter. Go home to your rest and say: 'I mean to get better, and I mean to stay here.'"

"If you ask it," says the boy, with a smile, "I will."

The waiter brings full glasses. Did they rise? No, but it is a life they leave them. A farewell glass. Did they rise? No, but it is a life they leave them. A farewell glass. Did they rise? No, but it is a life they leave them.

"To your better health, Walter," he says: "To our new names."

His eyes look no longer into the void, but gaze upon the antithesis of death. His foot is set in an undecorated path, and he is smiling, ready to go. "Good night," she says.

"I never kissed a girl before," he confesses, "my sisters."

"You didn't kiss me?" she laughs. "I kissed you—good night."

"When shall I see you again," he promises.

"You promised me to go home," she frowns, "and get well. Perhaps we shall meet again soon. Good night," she says.

"I don't know," she says, "but the smiles broaden and kisses him once more upon the forehead. She watches him as he goes, the aisle, then sits again at the table."

The waiter returns for the tray and glasses. As he enters, the girl crushes her handkerchief in her hand, in her hand and throws it in a corner. The waiter is stirring something in her glass with her spoon.

"Why, Miss Rosa," says the waiter with the civil familiarity he uses— "putting salt in your beer this early in the night?"

# INCOME TAX LAW POINTERS

vides for the deduction of "a reasonable allowance for personal services actually rendered." The test of deductibility is whether the amounts paid are reasonable and whether they are in fact for personal services. Money paid as officer of a corporation for which no services, or services inadequate to the compensation rendered, is not deductible as "salary. Reasonable compensation is held to be "salary."

is paid by like enterprises in like circumstances for like services.

For example, an officer of a corporation received in 1926 compensation in excess of the amount ordinarily paid to officers of such corporations, and which he had received in the preceding year, for the same services, and the excess amount of his stock holdings in excess would not be treated as salary but as a distribution of profits upon stock, and the amount of such excess

This is indicated in the results at the first Federal census of this particular branch of the knitted outerwear industry announced today by the Commerce Department, showing 6,876,192 pairs of these socks will have been produced in that year for a return of \$9,929,523.

The total value of the industry's

But even to employees may be deducted by employers when such payments are made in good faith as additional compensation for services actually rendered, provided that, when added to the stipulated salaries the total does not exceed a "reasonable" amount for the services rendered. When the amount of a salary of an officer or employee is paid for a limited period, it is not considered a deductible item.

**MINEY'S BODY RECOVERED**

PRICE (Utah) Feb. 8. (P) — The body of Andrew Stuck, 30 years of age, coal miner, was brought to the surface today from the Spring Canyon Coal mine, about 10 miles from the town of Compas, a mine about 100 feet underground. The man, who was imprisoned by a cave-in, was dead when his body was recovered.

# LARGER-ARMY BILL INDORSED

Senate Committee Adds to House Appropriation

Better Pay for Personnel Given Approval

Coolidge Asks Additional Money for Navy

WASHINGTON, Feb. 3. (P)—Senate approving the House provision for an increase in the size of the standing army to 115,000 men, the Senate Appropriations Committee has added \$2,344,135 to the annual War Department appropriation, bringing the budget estimate to \$254,524.

Of the total sum added, \$1,533,000 is for additional pay for the army at the increased strength, which is approved by the Budget Bureau. Other increases added by the Senate committee include:

Expenses for the National Guard, \$110,500; headquarters and camps for the organized reserves, \$250,000; 600 additional horses, \$62,500; headquarters for graves of soldiers, \$25,000; purchase of land at Camp Meade, Tex., \$37,000; repair, maintenance and construction of roads, bridges and trails in Alaska, \$20,000; improvement, Fort Detrick, N. H., \$10,000; forage for 600 additional horses, \$33,500; fire control stations, Hawaii, \$400.

The bill is now in the hands of the President.

President Coolidge today asked Congress for an additional appropriation of \$2,942,948 for various naval activities, including \$1,000,000 for the Marine Corps to meet expenses entailed by the marine mail guard, and to maintain the corps at its full enlisted strength of 16,000 men for the remainder of the present fiscal year.

Other allotments would include: Continuing construction of submarines S-48, \$640,000; railroad improvement at Pigeon Sound, \$75,000.

GAMBEL'S SALES  
LIVERPOOL, Feb. 3. (P)—Old, Ricardo Garibaldi, banished from France after his conviction for connection with the unsuccessful plot to free Catalina from Spain, sailed today for Cuba.

## To Those Who Have HIGH BLOOD PRESSURE

Modern thought brings new conceptions of health. Thrombosis, arteriosclerosis, and other diseases are largely caused by eating devitalized foods.

AGNEL  
products. They seek these richest in body building elements, which are usually refined from modern foods.

AGNEL'S Gift to Humanity  
In recent years scientific and medical men have given considerable attention to the Mexican Aguel and its remarkable oil, known as Aguel or honey water. In Mexico the Aguel plant is called "the green cow".

Native lore and history record that Aguel has been used for centuries to maintain health and treat disease. And for nearly 40 years European and American physicians have seen patients suffering from constitutional disorders to which it had to be drunk as a tonic, for it is the fresh milk of the Aguel plant, which destroys valuable properties.

Minerals, Yeasts, Vitamins  
Chemical analysis shows Aguel contains very rich in minerals, and it contains an abundance of natural yeasts. As the plant takes ten years to mature in tropical climates, Aguel is believed to carry a wealth of the mysterious elements called vitamins.

New Aguel is the U. S. A.  
Now at last Aguel is available outside Mexico in unadulterated form. Known as Aguel, it contains every valuable element contained in the Aguel plant, and is free from drugs and alcohol. Thousands have tried it, and doctors recommend it. If you or loved ones have high blood pressure, you should investigate Aguel. For sale by every health food store, or write Aguel, 111-W Hollywood Blvd., Los Angeles, Calif.

Also for sale at Aguel demonstration offices, 111 Hollywood Blvd., and 121 & 123 E. Los Angeles Blvd. The delicious raw food may be tasted free.

# STAGE CLEAN-UP PLANS DELAYED

New York Crusaders Must Wait Mayor's Return

Voluntary Censorship Sought as Remedy for Evil

Legislation Threat Causes Producers to Act

NEW YORK, Feb. 3. (P)—The nine producers, authors and actors constituting a self-appointed "stage clean-up committee" seeking a city agency to censor plays, today were told they would have to wait until Mayor Walker returns from Cuba before the city could formally act on the suggestion.

The committee, headed by Winthrop Ames, producer, called today on City Hall officials to present a plan designed to bring about voluntary censorship and to stop "outside meddling" such as State legislation.

Their idea was, it developed, to permit the appointment by the Mayor of a board of review, to be selected from the theatrical field.

Without the establishment of an official municipal agency, Mr. Ames said, it would be impossible to purge the New York City stage.

TALK WITH MCCORMACK  
In the absence of the Mayor, the committee talked with William F. McCormack, Municipal Bill Drafting Commissioner. Mayor Walker, however, has been expected to official censorship, and Mr. McCormack said he was unable to express the city administration's viewpoint. He suggested postponement of the matter until a conference could be arranged when the Mayor returns.

Mr. McCormack said the plan would be workable from a legal standpoint. The board of review would be official, under suggested plans, with as much power in the field, as any other city department. It would have the authority to determine what plays should be granted permits and no permit would be issued until the manuscript had been passed by the official board.

PRODUCERS JOIN HANDS  
Legislative threat of censorship has brought New York producers, who banded since 1924 because of differences as to policy toward the Actors' Equity Association, together again in a common fight against outside "meddling."

Broadway plays found a champion in Dr. Donald Olive Street of Princeton University.

"If the censor stop plays the producers will start bootlegging them," said Dr. Street.

"I have seen and heard of men who have been hurt by drink, but never in my experience have I ever run across any one that had been morally injured in any way by the spoken drama."

"Bootlegging of plays can be carried on just as bootlegging of intoxicating drinks. If plays are censored, private societies will be formed which will charge no admission to the plays, but to go one must be a member of the club, and there will be membership dues."

In the opinion of John Golden, producer, the theater is immoral at present because the public works in that way and because the critics bestow generous approval on vicious productions.

Goodyear Suit Adjourned to Court in Ohio

NEW YORK, Feb. 3. (P)—The hearing of requests of stockholders of the Goodyear Tire and Rubber Company for an accounting of the profits of the company, involving the books of the Dillon, Read & Co., of Delaware and the Dillon Read & Co. Stock Association of New York, was adjourned today for reopening soon in the Common Pleas Court of Akron, O.

Plaintiffs in the request for the accounting are seeking to oust Clarence Dillon and John D. Goodyear as directors of the Goodyear organization.

MICE INVADE VALLEY

Rich Alfalfa and Dairy Section Menaced by Rodents

LOGAN (Utah) Feb. 3. (P)—Mice in menacing numbers have made their appearance in the rich alfalfa and dairy section of the Cache Valley between this city and Smithfield.

The first word of their appearance in large numbers was brought here by James A. Craven, a frequent traveler of the road, who said that many of the rodents had been killed by automobile while crossing the road.

Two wild winters are blamed for the increased number of pests.

# Two Foreign Lands Get Attention from United States Marines

The Russian Brains of the Cantonesse Forces now threatening life and property of foreigners in China, are shown above. From left to right, they are, M. Borodin, chief adviser; Russian adviser, name unknown, and Gen. Stallen, Russian army officer. Fourth figure is Gen. Chiang Kai-Shek. Marines are en route to China from San Diego. (P. & A. photo.)

A Rebel Machine Gun Platform erected on territory subsequently declared part of the neutral zone, is under guard by a business-like "leatherneck" in the photo above. United States marines in Nicaragua have the situation "well in hand." (P. & A. photo.)

United States Marines Already on Duty in Nicaragua have exercised a quieting effect upon the Sacaca revolutionaries seeking the overthrow of the government recognized by this country. The American force has encountered no active opposition. Photo shows a detail of marines undergoing inspection in the Nicaraguan war zone.

Inheritance Hoax asserted to have been perpetrated by Mrs. Gertrude Benefield (above) is under investigation by San Francisco police. (P. & A. photo.)

Thrilling Finish of Dog Team Race at Poland Spring, Me., with the well-known driver Seppalo dashing home ahead of a classy field, is pictured in the photo above. Seppalo's huskies negotiated the distance in two hours and eleven minutes, a record time. The annual event attracts widespread attention in the Northeast. (P. & A. photo.)

New York-to-Paris flight will be attempted next summer by Lieutenant-Commander Noel Davis, U.S.N., who will use an army bombing plane in attempt. (P. & A. photo.)

The Rough Clothes of the Swedish military cadet and the habiliments of Gustavus Adolphus, who may some day mount the Swedish throne. (P. & A. photo.)

Spring Gowns have already made their appearance in Hollywood. Here is Norma Shearer in a smart outfit which features an Eton jacket and uneven hem.

The Duke of York on an inspection of Colonial Troops during his recent visit at Jamaica in the West Indies, is pictured above in one of the first photos dealing with the six-months tour of the Duke and Duchess, to reach Los Angeles. The Duke is the figure in white in the foreground and wearing breast decorations. (P. & A. photo.)

The Moral Character of William E. Gladstone, late British statesman, has been vindicated by a jury which found against Capt. Peter Wright (above), London journalist, in libel action against Viscount Gladstone, a son. (P. & A. photo.)

Mayer of Deauville, M. Henry Letellier, is honeymooning in London with his bride, the former Yola Henriquet, French beauty, pictured above. (P. & A. photo.)

Artificial Fertilization of the Eggs of the sea urchin has been accomplished by scientists at the University of California. Dr. Guy W. Clark, who recently completed work of experimentation begun twenty years ago, is shown here at work in laboratory. (P. & A. photo.)

The proposal Dan Parker will make today and tomorrow is

## Startling

in character, but nevertheless MERITORIOUS

Just as other large, reliable institutions have produced commodities of merit at a real low price through the perfection of an efficient organization that spelled "business volume"—so can DAN PARKER. We are all aware of a "wonderful buy" in a "low-price" business because of the wonderful organization that has been built and the huge volume of sales enjoyed. Well, the same principle applies proportionately in this case. DAN PARKER has built up the greatest tailoring organization in Los Angeles and enjoys the largest volume of tailor-made suits. Consequently he can make this great 2-for-1 offer today and tomorrow. Pay us a visit—and you'll be agreeably surprised. No obligation involved.

Immense Beneath the Equator are the goals of 350 Mennonites, who have left their colony near Winnipeg, Can., and are now on the high seas en route to Paraguay. A Mennonite family pictured above aboard ship at New York with its worldly goods. (P. & A. photo.)

OPEN SATURDAY UNTIL 9 P. M.

## OUR HISTORY IN PICTURES

631

Grant Before Vicksburg.

by J. CARROLL MANSFIELD

EARLY IN FEBRUARY, 1863, GEN. GRANT CAME TO MILLIKEN'S BEND AND MOVED THE UNION ARMY DOWN THE MISSISSIPPI TO YOUNG'S POINT ON THE LOUISIANA SHORE. SHERMAN'S REPULSE AT CHICKASAW BLUFFS HAD SHOWN THAT VICKSBURG COULD NOT BE SUCCESSFULLY ASSAULTED FROM THE NORTH BUT GRANT WAS DETERMINED TO FIND A WAY TO REACH THE CITY.

DURING FEBRUARY AND MARCH, THE UNION ENGINEERS WERE HARD AT WORK ON THE DITCHING OF A PASSAGE THROUGH THE NETWORK OF BAYOUS ON THE WESTERN SHORE WHICH WOULD ENABLE FEDERAL SUPPLY SHIPS TO GET BELOW VICKSBURG WITHOUT RUNNING THE GAUNTLET OF THE CONFEDERATE BATTERIES ON THE BLUFFS. THIS GREAT PROJECT WAS RUINED BY THE SPRING FLOODS.

WHILE WORK ON THE CANAL WAS PROGRESSING, COMBINED NAVAL AND MILITARY EXPEDITIONS WERE SEARCHING THROUGH THE BAYOUS NORTH OF VICKSBURG FOR A NAVIGABLE WATERWAY OVER WHICH TROOPS COULD BE TRANSPORTED TO A POINT ABOVE HAYNES' BLUFF AND THENCE DIRECTED AGAINST THE REAR OF THE SOUTHERN STRONGHOLD.

ALL OF THESE ATTEMPTS FAILED. ONE EXPEDITION REACHED THE JUNCTION OF THE TALLAHATCHIE AND YALLAGUMMA RIVERS BUT WAS REPELLED BY THE GUNS OF FORT PEMBER. THEN, A HASTILY CONSTRUCTED WORK OF EARTH AND COTTON BALES, DEFENDED BY 1,500 CONFEDERATES UNDER GEN. LORING, STOPPED THE ARMY. THE "QUEEN OF THE WEST."

# JANUARY TRADE REVIEWED

Monthly Bulletin of First National Group Reports Generally Good Showing in Los Angeles Area

Business activity in the Pacific-Southwest during the first month of the new year made a good showing, with volume of trade continuing large, and bank clearings in Los Angeles establishing a new monthly record, exceeding January a year ago by more than 11 per cent, and the previous record month by 2 per cent, states the monthly summary of conditions issued yesterday by the research department of the First National-Pacific-Southwest banking group.

Bank debits registered similar gains of 9 and 8 per cent over January of 1926, and December last year and nearly equaled the peak month of March, 1926. The combined debits in eight outside cities, for the four weeks ending January 26, last, also established a new high level, showing a 10 per cent increase, the report states.

Retail trade volume was good for a month following active holiday season, the review continues. Final reports of December department stores in Los Angeles, by the Federal Reserve Bank, revealed a gain of 13.8 per cent over December, 1926, and an increase of 8.2 per cent for the month of January. The proportionate growth more than twice as large as that of the other reporting cities in the Twelfth Federal Reserve District. Wholesale trade was not as satisfactory, showing but a moderate gain in the month.

Prospective building operations, as evidenced by new permits issued during January, showed little change from last year. The building industry has fluctuated closely around the \$6,000,000 mark since last July. Industrial production, a proportionate growth with the exception of the sardine pack, which is very short so far. Petroleum output during the month, due largely to a depletion of the oil fields, is considered likely that a 44 per cent increase will be established. About 60 per cent of the common stock of the road is now owned by Missouri Pacific, which holds all of the \$23,700,000 preferred.

On Preferred Thought Minneapolis and St. Louis lost much of its attraction as a result of the straightened statement of the head of the protective committee for the road's consolidated first mortgage bonds. Yesterday the stock was run up with other little rails and today it retraced most of the distance. Large scale selling was induced here by the sharp decline of the aforementioned banker that the stock was "worthless in any plan for reorganization."

# RURAL DEFEACEMENT

England Trying to Prevent Disfiguring of Country Landscape

A society for the preservation of rural England has recently been found in London. One of its principal objectives is to prevent defacement of the rural landscape near cities when roads are widened and real estate developments are expanding hurriedly.

In particular does it oppose what is called "ribbon" building, or lining roads, with replicas of the same daily house, without regard to the natural advantages of the lay of the land, and of trees and shrubs.

American may derive comfort from the fact that they are not alone in seeing the rural countryside near the cities harmed by "development" schemes. We may also learn in time the lesson that the "rural countryside," as our British friends describe what we less correctly speak of as "scenery," is an asset even in districts which are being suburbanized.

# SAFETY ZONES FOR DOLLARS

Practical Ways of Investing in Home Ownership, Savings Accounts, Life Insurance, and Dependable Investment Securities

XXXIX.—Factors in Judging Electric Securities The territory and the type of customer served by an electric company are important factors which the investor will do well to consider when choosing power and light securities. Well managed and financially sound electric companies serving compact, densely-populated communities are generally held to be more attractive from an investment standpoint than those which do a like amount of business within a more extensive area. Under present conditions, about 80 per cent of the total cost of electrical service to the home can be charged to transmission. Companies which serve a wide and sparsely settled area are forced to build and maintain a large amount of distribution line, hence they require a greater capital investment for an equal volume of business. Loss of energy in long-distance transmission is another factor which adds to the selling cost of companies serving in these respects.

In this matter of territory there is another point to be considered. Companies which deliver power over long distances are generally hydroelectric companies and, in many instances, large producers of power. In their case, extended equipment and power loss may be fully neutralized by lower generating costs.

# THE INVESTOR

First Mortgage Issues in Demand at Times of Business Uncertainty.

BY RALPH HENDERSON, Editor, The Investor (Copyright, 1917, by New York, Feb. 3. (Exclusive)—In times of uncertainty in business investors usually find it to their advantage to place at least a portion of their surplus funds in first-mortgage bonds. It is rather obvious that should a depression develop such bonds would be the last to be affected. Also the tendency to switch from speculative to high-grade bonds, which would ordinarily follow such an occurrence, could be expected to maintain, if not advance, the price of the latter.

Financial and industrial leaders are generally inclined to regard the present business situation as uncertain in many respects, although they are by no means pessimistic. It is, therefore, not surprising that the better-grade first-mortgage bonds are quickly taken up whenever offered for public subscription, particularly in view of the fact that there is a plethora of investment funds available at this time.

The offering of \$12,500,000 Southwestern Gas and Electric Company first-mortgage bonds, which were offered recently was no exception to the general rule. At the offering price of 96 and interest, to yield approximately 5.35 per cent, they were generally regarded as attractive and were quickly oversubscribed. Southwestern Gas is under the supervision of the Middle West Utilities Company, one of the largest and most progressive organizations of its kind in the United States.

Not earnings of the company for the twelve months ended November 30, 1926, after maintenance and taxes, were equal to more than three times the annual interest requirements on these bonds. Gross earnings have shown a substantial gain each year since 1922.

Proceeds from the sale of this issue will be used for the redemption of all underlying and divisional bonds, for the acquisition of property, for partially refunding the debt of the company, and for other corporate purposes.

A survey of Dean W. H. Mitchell in the University of Wichita, Kan., disclosed that working students averaged as high grades as those whose college expenses were paid by parents.

# Many Conservative Investors are Buying This Stock

Because Their sound judgment has convinced them That The stability of the 5% Cumulative Preferred is evidenced by a personal inspection of the company's ships and cargoes aboard.

The exceptional earning possibilities of the Common is apparent from investigation of the Company's records. Courteous, Efficient, Experienced Management in a Prolific Basic Industry protected from foreign competition makes a Sound Basis for Investment.

Limited space prevents the publication of other reasons. We want the business men of Los Angeles to know all about this First and Only Los Angeles owned and operated Intercoastal Steamship Line—of the service that is giving—of the dividends it has paid—of the opportunity for investment that it offers. We welcome your fullest investigation. Send for the additional information offered, or come in and talk it over.

# \$500,000 Mortgage Insurance Corporation

# INSURED FIRST MORTGAGE CERTIFICATES

Legal investment for California savings banks, trust and insurance companies; eligible for deposit with State Treasurer to secure faithful performance of trusts; exempt from California personal property tax. Metropolitan Trust Company of California, Trustee

Security—ISSUED under State regulation these Certificates represent ownership in 161 insured first mortgages and first deeds of trust, totaling over \$500,000 and averaging less than \$3200 each, which are assigned to and deposited with the Trustee. The liens are secured by improved California real estate appraised at \$1,050,565, or more than twice the amount of the issue. Under the Mortgage Insurance Act all appraisals are made by appraisers approved by both the Superintendent of Banks and the Insurance Commissioner of California.

Guarantee—EVERY deposited first mortgage and first deed of trust is accompanied by a policy of mortgage insurance insuring the payment of principal and interest thereon. In addition, the Corporation, in the Trust agreement, guarantees that sufficient moneys will be paid to the Trustee to meet both principal and interest requirements on the Certificates as due.

Diversity—DIVERSIFICATION is gained by the practice of selecting only first mortgages and first deeds of trust of moderate amounts in widely separated districts. Los Angeles, San Diego and San Francisco, including the best suburbs within their metropolitan areas, is the field from which the Corporation selects its mortgages.

## Wheat Futures Sag Following Early Advance

CHICAGO, Feb. 3. (Continued)—Wheat prices in the futures market today were mixed, with a new high, on the recent movement, while September of 1927 was in new ground for the reason to date. Selling against offers and liberal profit-taking caused a reaction of about 1/2 cent, but the market recovered to the level of the previous day, with May 1927 at 1.15 1/2, July 1927 at 1.15 1/2, and September 1927 at 1.15 1/2.

There was no reaction of consequence on wheat and soybean futures, which were held by local and foreign buyers with interest in the market. ## NEW YORK BOND PRICES

NEW YORK, Feb. 3. (P)—Principal activity in the bond market today was in domestic railway and public utility issues. Prices generally were firm. Foreign securities, which started off in good demand grew softer on profit taking.

Many railway issues, which also showed opening strength, reacted later and closed steady, among them Chicago Great Western 4s, Denver and Rio Grande 4s, Erie convertible 4s and Missouri, Kansas and Texas adjusting 3s. There was considerable buying of Western Maryland 4s.

A 3-point gain by Brooklyn Union Gas 5s featured trading in the public utility division, while Empire Gas and Fuel 6s also received good support. Industrial issues generally were heavy, although Granby 7s scored a substantial increase.

In the foreign group, Mexican bonds advanced on heavy buying, while other Latin-American issues yielded to selling pressure. Central European obligations, which opened firm, sagged toward the close.

Only nominal activity took place in Federal government loans and prices were irregular. Chief interest was in the Fourth Liberty 4 1/2s.

An issue of probably \$50,000,000 Aluminum Company bonds is expected on the market next week. Offerings tomorrow will include an issue of \$25,000,000 Standard Power and Light thirty-year 6 percent debenture bonds.

The securities represent sales of bonds for the week ending Feb. 3, 1927. The total amount of bonds sold was \$1,000,000,000. The total amount of bonds sold was \$1,000,000,000.

## NOTICE TO OUR CLIENTS

WE ARE mailing a series of letters to our clients covering the past activities and future possibilities of the JULIAN PETROLEUM CORPORATION and the companies owned and controlled by it, which it proposes to merge into the CALIFORNIA-EASTERN OIL COMPANY.

This information is taken from the reports to the bankers and underwriters of the CALIFORNIA-EASTERN OIL COMPANY prepared by the JULIAN PETROLEUM CORPORATION and its subsidiary companies. Because of its importance we urge our clients to study this information carefully. If you are not receiving these letters please communicate with us at once and we will forward them to you, without cost.

Please Reply 2401 for latest quotations on Julian

MAIL ORDERS PROMPTLY EXECUTED

## Charges of Receiving Stolen Property

Marvin H. (Doc.) Shouwerler was arrested last evening with his wife, Marion Shouwerler, on charges of reception of stolen property.

Only a few hours earlier Shouwerler had been found guilty in Municipal Judge James C. Coffey's court of receiving stolen property and of possession of stolen goods and had been released to await sentence today.

The arrests were made at First and Broadway by Detectives Louisenbaum, Sander, O'Brien, Minsky, Seguevian and Thomas, who have been assigned to a burglary assignment for several months. The officers had little to say about the case, beyond emphasizing the opinion that Shouwerler had been a burglar for some time.

Both were released on bonds of \$500 each after being in jail a few hours.

Shouwerler was arrested at 1015 W. 15th, last, on suspicion of burglary charges, following the stealing in his apartment of a coat and a pair of women's clothing. His car and his apartment were searched, but nothing was impounded, when he was unable to produce the stolen goods. The case is in the hands of the police since.

## Day Observed by Delegates

Through a misunderstanding, the proclamation promises the Parent-Teacher executives by Mayor Croy, made yesterday the official twentieth day of the year. Los Angeles was not intended. Wednesday, the tale is to be given the publicity that has been expected.

Mrs. W. W. Croy, president of the Parent-Teacher Association, stated that she did not know she was expected to observe the twentieth day. When it failed to reach her she informed the Mayor's office and was informed that it had been failed and would be different. What she said for it.

The meeting yesterday was a meeting of the Los Angeles Public Schools Mutual Aid Association, and

attended by every race anywhere in the world. The work in Los Angeles. Delegates were from all the local associations and more than 600 attended. Mrs. W. W. Manges presided, and speakers were drawn from local bodies.

## Students Earn \$78,000 to Aid Christmas Fund

High school students earned a total of \$78,000 during the few days of the Christmas Gift Campaign, according to a report submitted by Arthur Dorsey to the Board of Education yesterday.

SEN. DORSEY commented on the fact that it was the students in the more prosperous districts that earned the most money.

men from Hollywood High School reported a total of 10,000. Los Angeles High School had 210 of its students employed who earned a total of \$100,000. Manual Arts and students from Hollywood and Hollywood North High earned \$470.

Plans for the new \$700,000 high school building at 10th and Washington, were approved by the board. The building will occupy a lot bounded by 10th, 11th, 12th and C streets and 4th and 5th streets. The lot is 100 feet wide and 100 feet deep. The lot is owned by the city of Los Angeles.

**PARK BATH PLANNED**

Griffith Playground Will Have \$70,000 Building

A combined bathhouse and playground building at Griffith Park Municipal Playground, Los Feliz boulevard and near Griffith Park, is to be erected immediately by the Los Angeles Playground and Recreation Department.

Griffith Park Municipal Playground, containing twenty acres, a large swimming pool practically completed and extensive piling for the bath and home has been sunk to bedrock.

The new building will be a central structure of two stories with dressing-rooms, shower lockers and all facilities and connected at either end by passages with two buildings for boys and girls.

## TELEPHOTOGRAPHY EXHIBITION GIVEN

Officers and directors of the Los Angeles Chamber of Commerce were given a demonstration of telephotography yesterday afternoon at the new Los Angeles Exhibition in the Southern California Building at 1015 and 1017 South Olive street, the showing being arranged by H. B. Rowley, vice-president of the Chamber.

phone company. Among the guests were Arthur H. Bank, George Kaufman, John W. Evans, Isaacson Randall, R. A. Holloway, John A. Carson, A. J. Hill, Harry J. Bauer, R. F. Friedman, John C. Austin, C. J. Burke, A. Carman Smith, John P. Burke, William A. Simpson and James P. Smith.

# Bullock's Closes at "One o'Clock Saturdays"

## 100 Heavy Silk Shawls, Saturday, \$11.75

## Imported Ship Models, \$9.95, Saturday

## Felt! Straw! Silk! Hats Saturday, \$5

### Novelty Cuff Fabric Gloves 95c, Saturday

New novelty cuff fabric gloves offered Saturday morning at this extremely low price. Fetching novelty cuffs, attractively trimmed. A complete range of sizes, in the desirable and smart spring shades. For Saturday morning and continuing Monday, 95c a pair.

Glove Section, Bullock's Street Floor

### Suggestions Valentine Gifts . . .

Favors or prizes for Bridge parties! Heart-shaped boxes filled with delicious chocolates or assorted French candies . . . just what the feminine world loves to receive on Valentine's Day. An interesting group of Valentine Candles for your selection is now ready. From the tiniest of tiny heart boxes to the very large and formal Valentine remembrance.

Bullock's Candy Section, Street Floor

### Collegienne Oxfords for Sports, \$7.50

A New Short-Vamp Model—Two-toned for Saturday . . .

A collegienne sports oxford with a medium heel—this is what so many high school and college girls have been wanting. How effective it is in two tones of tan. An illustration of the composite idea in footwear. At Bullock's Collegienne Shoe Shop in sizes 2 1/2 to 8—in widths AAA to B.

Just another reason for the increase in popularity of this Bullock Fifth Floor section.

Collegienne Shoe Shop, Bullock's Fifth Floor

### Turkish Towels 55c! Saturday

26x52 inch Turkish Towels (note the very large size) a "one o'clock Saturday" value at 55c each. All white, woven from sturdy double thread yarns.

Towels, Bullock's Second Floor

### Wool Embroidery Gives Compose Effect to New Collegienne Frocks, \$25

Presented Today and Saturday Morning

Gay splashes of color on the sleeves or colorful designs on the front of the frock. Two interesting ways of carrying out the composite idea (the harmonious combination of several color tones.) The dresses themselves are of flat crepe in soft neutral tones of beige, Mother Goose and tannish rose—backgrounds for striking effects achieved by wool embroidery. Two of the four models are illustrated. Dresses designed expressly for the collegienne—the girl who wears a size 13, 15 or 17 years. At Bullock's now—\$25.00.

Collegienne Shop, Bullock's Fifth Floor

### New Patterns in Suits for Boys 8 to 18, \$20

One pair of Long Trousers and one pair Sports Knickers. Several blending color tones—that's the fashion that these new suits for boys express. The patterns may be "invisible" plaids, zig-zigs and all sorts of interesting geometric designs but they must carry out color harmony. In the new soft tans of spring. Expertly tailored of fine woolsens. With all the little extra finishings that emphasize quality. Notice that they are the smart single-breasted style. Suits that Bullock's Store for Boys is enthusiastic about—at \$20.00. See them today or Saturday morning!

Going to the Mountains? Remember Those Wool Stocking Caps at Bullock's. You Must Have One.

Store for Boys, Bullock's Fifth Floor

### Two-toned Felts Felt All One Shade Felt Combin-d with Straw Braid

Silk Hats with Dignity for Mature Women

These are all included in a Saturday morning special selling at Bullock's Lower-price Millinery Section. Hats with ripple brims. Hats that interpret the compose and degrade ideas. Hats whose fashion-rightness and quality put them considerably above the regular \$5 class of hats. In keeping with Bullock's spirit of "One o'clock Saturday" values—at \$5.00.

Lower-price Millinery Section, Bullock's Third Floor, Hill Street Building

### Saturday---A \$3.95 Event Girls' Hats

Smart little felt hats and hats of felt and silk—intended for an extra feature Monday, but set ahead to Saturday morning so that girls will not have to miss school to take advantage of them. Hats that are adapted from "grown-up" models, but modified so that they are especially becoming to children. At \$3.95, Saturday morning (not today.) Junior Millinery Shop, Bullock's Fifth Floor

### Make Your Own Lamp Shades . . .

Bullock's will show you how without additional charge, provided your materials are purchased here. Clever new styles, the latest ideas in Lamp Shade and Pillow making . . . taught by an expert.

Lamp and Pillow Section, Bullock's Sixth Floor

### New "Foot Trainers" \$3.50 Saturday

A patent leather, plain toe oxford—just like the sketch. And a "Foot Trainer" of tan elk skin with perforated shield tip. These are two new arrivals just added to Bullock's already-famous assortment of "Foot Trainers." In sizes 8 1/2 to 11 at \$3.50.

Junior Shoe Shop, Bullock's Fifth Floor

at Bullock's! Just 20 in this presentation.

Lamp Section, Bullock's Sixth Floor

### Furniture February Features for Saturday this

### Tea Wagon \$23.75 in Furniture February!

"Furniture February" at Bullock's! A fashionable Furniture presentation, yet one with much price interest. This sturdy Tea Wagon is made of solid mahogany. Drop leaves, drawer for silver, removable glass tray, and lower shelf. \$23.75, Saturday (not today.)

Furniture, Bullock's Seventh Floor

### Girls' Imported Silk Frocks at a Saving . .

Today and Saturday Morning at the Junior Girls' Shop—Bullock's

Most of these clever dresses from abroad are proportioned for the athletic type of girl who is large for her age. And so while many are marked 14-year size, they are large "fourteens." This should be welcome news to those girls who have difficulty in getting dresses that are youthful in style yet large in size. But there are also distinctive little frocks for smaller girls of 6, 8, 10 and 12. Georgettes, flat crepes, crepes de Chine and pongee. \$11.00 to \$19.75.

Junior Girls' Shop, Bullock's Fifth Floor

Telephone Your Order to Bullock's, Broadway 6900

The "Santa Maria," fully rigged in mast and spar, with sails to the wind . . . faithful reproductions of her gallant original, Columbus' historic flagship—\$9.95 to emphasize the unusual nature of Saturday morning offerings

Graceful Shawls, distinguished by a heavy quality of lustrous crepe de Chine! The price very much more reasonable than usual. Each Shawl measures 54x54 inches and is finished by deep Callot fringes. A selection of flesh, pink, maize, turquoise, peach, orchid, coral, Nile, salmon, beige, June rose, blue lotus, honeydew, Copan, jade, red, grey and also black and white. \$11.75.

Shawl Section, Bullock's Street Floor

### Double Silk Poppies, \$1 For Saturday

Delightful new flowers to lead an intrancing note of color to the spring costume. The double silk poppy with foliage in the following attractive colorings: green, pink, peach, scarlet, Chantrel red, copan, Aladdin, gooseberry, maize, Marie Louise. \$1.00.

Flower Section, Bullock's Street Floor

### Fine Electric Irons, \$2.75 For Saturday

A special pricing for Saturday morning at Bullock's. Such ironing would make attractive bridge prizes. As the illustration above shows, the jar has heavy encrusted gold band trimming. In green, amber or rose. \$1.95.

Art Glassware, Bullock's Second Floor

### Glass Candy Jars, \$1.95 For Saturday

A special pricing for Saturday morning at Bullock's. Such jars would make attractive bridge prizes. As the illustration above shows, the jar has heavy encrusted gold band trimming. In green, amber or rose. \$1.95.

Art Glassware, Bullock's Second Floor

### 'How to Finish a Frock In the French Way

Saturday the last day of Bullock's Butterick Spring Revue of Fabrics and Fashions the experienced Butterick stylist will end her talks with advice on "French Finish." At 10:30 in the morning only Mannequins will display new costumes. Remember Saturday is the last day of Spring Revue of Fabrics and Fashions.

Bullock's Second Floor

Los Angeles Office, 221 White Street.  
Palo Alto Office, 121 White Street.  
San Diego Office, 121 White Street.

In addition to the above offices, the Times is published in many other cities and may be found by European travelers at the offices of the American Bureau of Travel.

**LOS ANGELES (Loce Ahng hays)**

**MEMBER OF THE ASSOCIATED PRESS**  
The Associated Press is exclusively entitled to the use for publication of all news credited to it, and no other news credited to it, and no other news credited to it, and no other news credited to it.

The Times claims at all times to be accurate in every published statement of fact. Readers who discover any important inaccuracy of statement or error in the printing of the Times are asked to call the attention of the Editorial Department to the error.

**INFLUENCE OF CHICAGO?**  
It is reported that Lake Michigan is not on the level any more.

**PAGE WASHINGTON**  
Speaking of foreign entanglements, there is the radio phone.

**AN ISLAND**  
A farm is rapidly becoming a body of land entirely surrounded by politicians.

**LEND A HAND**  
The best thing to lend is a hand, says Forbes Magazine. That was what we lent Europe and now look at us!

**SKINS**  
There is not much to consider when it comes to skins, but it is well to talk about something else than women's styles!

**HELPING THEMSELVES**  
People who take pains themselves don't give half so many to other people, nor do they have half so many given to them.

**TO TALK**  
The Soviet government has substituted English for French for foreign intercourse. However, it is not courtesy, but compulsion.

**INTELLECTUAL**  
It is really rather easy to be "broad-minded and progressive." About all you have to do is favor a smoking room for every church.

**CALL OF THE STORK**  
Recently in Wisconsin a seventeenth baby was born to Mr. and Mrs. William Stork—thus indicating that there may be something in a name.

**RICH MAN'S SON**  
Cornelius Vanderbilt is quoted as saying that it is hard to be a rich man's son. Well, it is the modern vogue to place all the responsibility on the parents.

**TRIMMER FROM TOURISTS**  
European tourists virtually are paying for America's war debt to the United States, says Jacob Gould Schurman. They leave \$1,000,000,000 annually "over there."

**HOLY GROUND**  
A woman says she worships the ground her husband walks on. And when he tracks some of it into the house she has been known to use worshipful language.

**HARTY SECOND**  
An association to fight profanity has been launched in Kentucky. Profanity certainly is an utterly tasteless and degrading habit, one every thinking man is heartily ashamed of and frequently has resolved to quit. Here's hoping the Kentucky association simply knocks the hell out of it.

**GORGING STUDENTS**  
A Chicago minister asserts that the gorging of the mind is the cause of college suicides. In this land of healthy college boys and girls we hadn't been aware of any special aid for suicides among them or even of special aid for mental gorging. But if the Chicago divine is right he may rest assured that what they are gorging on up there is intellectual fudge.

**GOOD SUGGESTION**  
One of the many who think they know what is the matter with the modern boys and girls declares they would be greatly benefited morally if they would drop all these jazzy popular songs and go back to the old-time, sweet, sentimental ballads. That's true. The situation might be helped if they would take to singing: "Where is My Wandering Ma Tonight?"

**THE HELIUM SUPPLY**  
Official confirmation of the disquieting report of the rapid diminution of the supply of helium in this country is given by a public letter from Gen. H. M. Lord, director of the Bureau of the Budget. Strong economic reasons are given by the general as to the necessity for additional plants to maintain the supply, which has been considerably reduced by the failure of the Texas natural-gas wells to produce it in sufficient quantities during the last two years.

By processes of compression and refrigeration helium is removed from natural gas and sent East to fill balloons and dirigible airships like the Los Angeles. Of course, other gases can be and are used for this purpose, but they are more dangerous than helium, which does not ignite, and, therefore, is far safer under military fire. We have been using helium stored in underground gas pockets in Texas and other States during millions of years of geologic history, but these pockets are not yielding as well as formerly.

Attempts have been made recently to produce helium artificially, but these have not been so successful as have those to produce nitrate. There is helium in the air we breathe, but only a trace of it, and it cannot be extracted like nitrogen. However, Federal encouragement of the production of this important gas, along with American enterprise and ingenuity, may be counted upon to give us the needed supply in the course of time.

**OUR ENERGETIC MAYOR**  
As he modestly confesses, the Mayor is on the job. So keen is his interest in civic advancement and so wide awake is he to the needs of a growing metropolis that he permits the insignificant space of only nine months to elapse before becoming officially aware that the voters of Los Angeles and Long Beach have voted for a unified harbor. Indeed, his progressive spirit so controls his actions that he now urges the City Council, without reservation or dodging the issue, not to let the matter rest where it is—at least not any longer. Considering that he might have let the matter remain quiescent another nine months all should here applaud our wide-awake and aggressive executive. He did not mention the fact that the principal opposition to the plan during the campaign came from his administration, but that is a detail.

In his annual message to the Council the Mayor presents two chief propositions. One is his revelation that the voters in April, 1926, ratified the merger of Los Angeles Harbor and the Long Beach port. The other is a proposal to fuse city and county government. The latter, on closer scrutiny, seems to reveal the fine Italian hand of Messrs. Farrot and Kinney, string-pullers de luxe. To control a city through a manipulated administration is an achievement. But Farrot and Kinney, like Caesar, have ambitions. A county is larger than a city. To control a county, therefore, is a greater feat. The suspicion is strengthened by linking up the simultaneous communication of the Mayor to the Board of Supervisors in which he complains heatedly that the county refuses to co-operate with the city on the matter of the Civic Center. He would imply, it would appear, that the city is eager and willing to advance civic interests, but that the county is a million miles around the municipal neck. Therefore, abolish the county—by a merger, of course, by a merger.

In addition, the Mayor is refreshingly vague on the manner in which amalgamation is to be effected. Reading between the lines, however, it is to be discovered that he considers the county the much less important unit. It might be expected as a result that the county would have to be made by the county. In the creation of such a consolidated government there would be political plums by the basketful to be passed out. These, naturally, would go to the faithful cohorts of the present administration. The fingers of the municipal bosses and sub-bosses are fairly itching to delve into the public funds now going for county affairs. There are enormous sums to be disbursed and these could be used to great advantage in strengthening the machine. The machine does on dollars, be they city or county.

The recent desperate efforts of Parrot to get control of the county government by causing the removal of a majority of the Board of Supervisors are fresh in the public mind. These, the campaign of vilification of the Supervisors conducted by Parrot's mouthpiece, the Record, and this merger talk of the Mayor, are all parts of the same scheme. It may be remembered that the Mayor was strongly opposed to city-county consolidation during his first term—and until the possibilities of such a merger dawned upon his superior, Boss Parrot. Cryer's nine-month wait on the harbor proposition is indicative of what can be expected of him. His long-delayed pronouncement in favor of this proposition, which the Parrot forces, through the Parrot-controlled Harbor Commission, stoutly demand during the campaign, is dictated purely by political expediency. Another municipal election is coming this spring and the "administration's" fancies are in very poor repair.

**WAR ON ILLITERACY**  
Enlisted by the Federal Bureau of Education for a campaign to reduce the number of Americans who are unable to read is the General Federation of Women's Clubs and other organizations have set to work with the slogan, "No illiteracy by 1930."

There will be chosen in each State a county typical of the whole State for an intensive effort to reach every illiterate resident and see that he is taught reading and writing. Every home in the county selected will be visited and questions will be asked as to the capability of members of the family in this line. Where illiterates are found an attempt will be made to instruct them at least in the rudiments of letters and inspire in them a desire for more knowledge.

This plan has been tried already on a small scale and has been found practicable, though some difficulty has been encountered by way of objection by heads of families to such intrusion into their homes. But, though the campaign recognizes the fact that the illiterate is rather a bold one, they say it is the only way that illiteracy can be fought and eliminated.

It is a humiliating fact that while we have only 1,700,000 illiterate aliens in this country the rest of the total of 5,000,000 are native-born Americans. England, Germany, Norway, Sweden and France have an illiteracy of less than 5 per cent, while the United States has 6 per cent. There are many other countries, however, that have a far greater percentage than ours, among them Italy, with 27 per cent, Greece, 57.3; Rumania, 69; Portugal, 68.3; European Russia, 69; Siberian and Caucasian Russia, 57; and Brazil, 55. But, while our showing is good compared with that of these latter countries, it is well that the campaign to improve it is under way, and it is to be hoped that it will be successful.

**THE RELAPSE**  
Now it is found that another convict recently paroled from San Quentin has been guilty of more than a dozen burglaries in Los Angeles. He had a houseful of stolen property, to say nothing of the stuff he had left in various pawnshops. When a man has the burglary habit it is foolish to permit him to have the run of the community. Prison doors should not so readily open outward.

**BLOOM IN THE SPRING**  
Men and women in Paris who think they are designing hats for the world say that they are going to bring back both flowers and feathers as a part of the trim for my lady's bonnet. They are beautiful enough to return at any time but if folly comes over her mind that the season is not ripe Paris milliners may put out their plumes and pantries in vain. Nevertheless the time is nearly ready for a renaissance and it may as well be pulled off here as in France.

**PLEASE, FATHER, GIVE ME A DOLLAR. I WANT TO TAKE MY GIRL BUGGY RIDING.**

(Proceeded by George Matthew Adams)

**THE FOR KISSING**  
A Glendale jurist lays down the emphatic ruling that a man may kiss his wife any time and any place. This is a rather broad decision, but it will serve its purpose until somebody takes an appeal to a higher court. The austere authorities upon the Supreme bench might not be so complaisant. But in Glendale a man may kiss his wife wherever he finds her. If it is somebody else's wife it is another story.

The case came into court as a charge of disturbing the peace in a movie theater. It seems that a husband and wife had quarreled and parted, but found themselves seated near one another at a picture show. They were much interested in the adventures of the hero and heroine—against whose happy union many vicious plots were laid. Finally when justice triumphed and the lovers fell into their final clinch the wife could not restrain herself. With her arm about the husband's neck she imprinted a kiss that could be heard all over the place. The husband returned the caress with unctuous and the embrace held until a hard-hearted usher broke up the party and the management called in the police. The rule of the house is that there shall be no osculation except as shown upon the screen.

But when the case came up in court and the husband explained the situation, the judge dismissed the complaint with three cheers. He said that rule or no rule a husband and wife were entitled to their kiss of reunion at any time and in any place. Whether it was in the midst of traffic, in church or at a funeral, it made no difference. The darkened confines of a movie palace seemed to the judge an especially fit setting for the caress. Anyhow, the theater management was robbed of water for nothing. Therefore, if young folks wish to do any kissing at the movies it will be all right if they insist that they are really husband and wife engaged in making up a quarrel. It seems easy.

**THE KANSAS PIE WAR**

State Senator Finley has issued an ultimatum to the Kansas legislature and if the law forbidding the sale of cigarettes remains on the Kansas statute books, he warns, he will introduce a bill to make unlawful the "making, selling, serving or owning of mince pie." Every patriotic partisan in the United States should protest this threatened abbreviation of the inherent pie rights of free citizens. If mince pie is prohibited in Kansas the prohibition may spread to all parts of the country, thus robbing millions of personal liberty, reducing the sale of California raisins and creating a new problem to harried restaurateurs who already have troubles enough in finding a legitimate and appetizing means of disposing of certain dishonored victuals.

Senator Finley declares that he does not intend to sidestep his responsibility if the people of Kansas want his lawmakers to formulate rules for everyone. He admits that he is in the line of mince pie, but that it does not agree with him. He charges that mince pie gives nightmares to children, thus causing loss of sleep which stunts growth.

If the State of Kansas does go prohibition on mince pie it will have one consolation. Senator Finley already has provided a season's supply of applesauce and if the law is passed he will certainly have demonstrated that he is for the people and thus the pie-eaters of Kansas will be assured of an ample supply of apple pie.

**MORAL FRICTION**  
"Friction is the hidden enemy of economy."

Thus tersely do purveyors of commercial lubricants warn against the use of inferior oils or the neglect to use any whatsoever. The friction that grinds away the metal and slows up the machinery can only be neutralized by proper lubrication.

The need of some moral lubrication that will oil the wheels of human progress is apparent from the fruitless bickering and deadlocked conferences that nowadays mark so many important deliberations designed to accelerate the business of living peacefully, happily and prosperously.

Councils, committees, conferences of whatever nature seem beset with that clogging hindrance—friction. Do a group of men confer for the purpose of speeding up a public undertaking or smoothing out a difficulty, instantly the friction of selfishness, of dogmatism, of petty prejudice and ignorance thrusts its clogging element into the wheels and slows or stops them.

Men refuse to consider the viewpoint of another; they insist on the way of their own selfishness; allow greed to sway them in their demands; harken to the voices of sectional partisanship—all of which constitute the friction that impedes the forward strides demanded by an ascending civilization.

The need today seems to be for a moral lubricant that will oil the machinery upon which man is dependent for his government, his peace and his prosperity. Its discovery will result in benefits incalculable.

But it will come only with the moral growth of the race. When tolerance supplants dogmatism, when altruism crowds out selfishness; when understanding destroys narrowness of vision in our council chambers—then only will the destructive grip of friction cease to impede progress.

**ALIBI**  
By James J. Montague  
A psychiatrist says that it is too late to change mental habits after the age of 5.

No matter how much I endeavor to accumulate riches and fame, there isn't a chance whatsoever. That I shall succeed in the game, I know that I can't be expected. To be more than a drone in the hive, for the years of my youth were neglected—I was left a mere wastrel at five.

If my parents, when I was a baby, had led me to think and to plan and trained my mentality, maybe I might be a different man. But they taught me no useful employment. From playing to playing I went in my frivolous search for enjoyment. Till my habits were set, like cement.

**OUR DESERT WEALTH**  
BY W. C. PROBABSO

A recent editorial in The Times dealt with the discovery, up in the desert regions of the greatest bonanza deposit in the world, and it recalled the fact that only a few years ago this whole region was considered as one that God forgot, but now appears as a great treasure house which is now producing great wealth with the whole world sharing in the benefits.

An estimate of the commercial bonanza of this desert region was placed as sufficient for the world's use for perhaps 1000 years.

Due mention was also made of various other resources and assets of the great desert region, but let us go on up the line that we may get a still better perspective.

In the article referred to no mention was made of one of the world's greatest potash deposits at Searles Lake, which is now producing potash at the rate of 100,000 tons per year, with the business only in its infancy; of one of the world's greatest soda and kindred mineral deposits at Owens Lake, which is just getting under headway of a great development involving the investment of millions of dollars; of the immense salt fields of Saline Valley, which are practically inexhaustible and are just being opened up to a great and growing market demanding the best and purest salt on earth; of the world's greatest talc deposits which will be used to supply the world's needs; of the mountains of adobe, extensively used in the manufacture of sparkling porcelain, insulators and many other articles of commerce; of the greatest deposits of tungsten in the world, for which there is a new and ever-increasing demand; of the mountains of marble, gypsum, limestone and similar materials, so pure that nature seems to have prepared them for the service of man in the building world; of vast beds of commercial iron ore, and of the great quantities of extensive and valuable deposits of the leading minerals, many of which are just being opened up.

new highways to all sections solving the problems of transportation and spelling prosperity to the industry.

All this layo county mostly and justly claims, and more. The loftiest and most formidable mountain range in North America, creating a great watershed of approximately 4000 square miles, capable of supplying water and power, when properly developed and conserved—sufficient for the use of millions of people, already supplying the city of Los Angeles and environs with that one great necessity—water.

And this is not all, but it would take a book to tell it—to tell all that God did not forget. How, for the last summer the tourists in ever-increasing numbers, generous and appreciative, and wonderful women and men of the desert—men of metal, men of courage, men with nerves like springs of steel.

Men who brave the desert's terrors and throw their lives in fortune's wheel. Men who seek the desert's treasures. Men of strength, superb and real.

**The Nation's Power Plants**  
The United States is harnessing more and more of its water power to make electricity. During the whole of the last summer the amount of energy thus generated ran about 20 per cent ahead of 1925. Approximately one-third of the nation's power is now hydroelectric. The remainder is generated by the burning of coal and oil.

**LETTERS TO THE EDITOR**

**Ask Your Tea Man**  
CORBIE DALENE (Idaho) Jan. 24.—[To the Editor of The Times:] I recently told my Chinese tea man that I had been thinking of taking a pleasure trip to China some day, that I liked the Chinese people, but that I feared that the Chinese did not like the white man. He has been to reassure me. "No, no, Chinese like white man. Trouble is in China caused by bad white man. If you go to the right. How would the father of a family feel toward a powerful, uninvited stranger who came into his home, made himself entirely at home and sat down at the head of the table and appropriated all the choicest tid-bits and laid down laws for all the family?"

The Chinese are a naturally hospitable people. They have a long tradition of culture and civilization. They are of a different race from that of the white man, possess their own country and have the right to keep white men from overrunning it. It is not deplorable that all the much-vaunted civilization of the white man has not yet taught him the simple, elementary, but so noble distinction between meum and tuum?

**CHARLES HOOPER.**  
Rosa M. M. Jan. 24.—[To the Editor of The Times:] Saw your editorial comment on letter, suggesting immediate deportation of aliens after second conviction of a violation of the Volstead Act. "Why Volstead Act," which is more common sense; but why second offense?

The United States gives these aliens the same opportunities it does its citizens and they come to take advantage of it; but do not wish to take on any responsibilities of citizenship, so it is not seem that the least they can do for these advantages would be to obey the laws of the nation and State they live in. If they will not do so give them back to the country of their first conviction, unless it carries a jail or prison sentence; if so, on release let them be surrendered to the United States government for immediate deportation.

**F. O. POLLEY.**  
So Early in the Morning  
LOS ANGELES, Feb. 1.—[To the Editor of The Times:] I often wonder why people have handles on their names such as Miss, Mr., Mrs., etc. Why do we not use our full names and let it go at that? Married women should retain their own names always; it would eliminate much confusion and allow friends to refer to them in terms of their own names. Some day we will eliminate the titles and changes and we will then wonder why we didn't do it before. Just as we wonder why bobbed hair wasn't aged ago up to stay? Why women ever put up with the fashions of years gone by.

Mary Brown sounds much better to my thinking than either Miss or Mrs. Brown. Just as John Brown is more impressive than plain Mr. Brown. Another thing I wish to speak of is the silly habit some clerks have of addressing women as "madam." "Madam" with help you please" sounds much more pleasing and friendly, thus more conducive to trade.

**ROBERTA ROBBINS.**  
Better Than Peaches  
CULVER CITY, Jan. 25.—[To the Editor of The Times:] As a constant reader of your very interesting paper I wish to compliment you on the good judgment in keeping the disgraced Peaches and Browning case off the front page.

Thank the Lord for Harry Carr, Alma Whitaker and Will Rogers. **STUDNEY H. SMITH.**

**OF WHAT AVAIL?**  
These eyes of mine are made to see. These ears are mine to hear. But, oh, how meager is my sight. How little do I hear.

This life of mine goes speeding on. As it wings in flight. And even before I've gazed around, Alas! 'tis darkened night.

I vision well within my soul. Of sights I never see. I list with all my inward strength. For sounds I know must be. But held by bonds of knotted rope I pull the Volga shore. My ears attuned to but one song. With eyes to see no more.

I preach of freedom—alike I am. By custom's tightened apron. I lift my ears, but palms close tight— Ah, foolish, weak-kneed man! **H. B. PRESS.**

**QUEEN PLACE FOR A BURE**  
A cocklebur, three-quarters of an inch long, was removed from the right lung of Ella Halden, 27 years of age, of Poplar Bluff, Mo., at a St. Louis hospital. It was removed with the bronchoscope in an instrument which permits physicians to get at foreign bodies in the lungs and bronchial tubes. Apparently the cocklebur got into Halden's lung a week before, when he had removed a bunch of them from his mittens with his teeth. (Indianapolis News.)

# PEN POINTS

At any rate, a prize doesn't seem so old and defunct when it is awarded.

Well, if Chinese generals control mobs there are others here.

You can tell what degree of he is if you know what he thinks of Laidis.

German won't lead long as a champion. They haven't the incentive of industrial alcohol.

Perhaps the counterpart in the state in telling a friend the other's political looks as good as new.

It's probably too much to expect a California citrus grower to be sympathetic about frozen in the state.

A dominating personality doesn't help much if the other fellow is driving a truck.

Dances flourish seldom but it's just as well to let the best get knocked out.

Amateurism! Howling the best down, looking to beat the neighbor.

Men in superior in some ways but he can't get forty cubic feet of trunk into twenty cubic feet of trunk.

Well, even's Santa Claus won't own very realistic when it is getting 5 and 4 per cent for himself.

Capitalism means much. The best are shown where you can see. For this is where you can't.

It you wish to discover how you or your man is taking his share of an alarm clock.

Conflict teaches us that the best need in war are seldom in the guns that occupy their minds in time of peace.

Manliness isn't ladylike. At least it tends to do away with the as an argument.

Correct this sentence: "He will," he checked; "Purbs a string."

It doesn't take much to encourage a hopeful person.

Distance doesn't lead enough when you run out of gas.

Some people have a sense of the war, others tell their troubles.

Nothing is easier to hear than the troubles of your neighbors.

It takes a dentist to pull your teeth, but anybody can pull your tongue.

Variety is the spice of life. The why divorce courts were established.

Another line gone flat. I am and faced a job I always dread for when I toil with tools and I'm pretty sure to sprain my back and have a rib and twist a leg and break a ligament or three.

Nothing is easier to hear than the troubles of your neighbors.

It takes a dentist to pull your teeth, but anybody can pull your tongue.

# VALENTINES OF LIFE EXPLAINED

Round Tokens of Joy by KHJ Speaker

Valentines Dedications of Radio Numbers Hit

Baritone Offers Pleasing Program

BY DR. RALPH L. POWER

The "Valentines of Life," was the title of the KHJ address last night.

Dr. Power, who is the assistant pastor of the Wilshire Presbyterian church, in his weekly broadcast talk.

The speaker's main objective was to show that the valentine is not a mere token of love and not on some particular occasion.

The patriotic valentine, the valentine of Independence Day, the cheer valentine, the joy of Easter, and the valentine of love should not be limited to these particular days but should be our constant companions.

Dr. Power is on the subject of valentines in his address last night. He said that the valentine is not a mere token of love and not on some particular occasion.

It's probably too much to expect a California citrus grower to be sympathetic about frozen in the state.

A dominating personality doesn't help much if the other fellow is driving a truck.

# Radio Juvenile Talent Performs

JURE AND DICKIE BRANDON

GLORIA CURRAN, JUVENILE VIOLINIST

BILLY LORD, "POLICE COMRADE"

Vast Array of Talent at KHJ

can hardly be an excuse even for the same procedure on programs of orchestras numbers.

When the commercial stations all time on the air there are comparatively few dedications between numbers for it costs considerable for the actual broadcast time. But these same stations on their studio programs, that is, time which they could not sell, have worked the dedication program to a frazzle.

CHILDREN'S HOUR

After the fifteen-minute period of songs and piano numbers by J. Walter Leopold last night, KHJ began the children's hour at 6:30.

Rosetta Lewin, child reader, had two numbers for Radioland: Jeanne De Sant, "Bonnie Jean," versatile juvenile, sang and entertained, and Gloria Curran, 8-year-old violinist, presented a number or two. Donald

Burkholder, little 3 1/2-year-old reader, made his first KHJ appearance and Gerald Thompson, juvenile guitar soloist, played several pieces, and Billy Moore, child reader, recited.

The evening Scripture was read by Rev. F. M. Ballenger, pastor of the St. James Methodist Episcopal church, and Dr. Philip M. Lovell gave his weekly health talk.

Leo A. Sander, distinguished Russian baritone, whose sympathetic vocal qualities have endeared him to the radio audience, selected a particularly appropriate group of numbers. They have been heard over the radio hundreds of times, but the selections are well suited for Mr. Sander's voice, and he seems to give them a new interpretation. The group included "I Know a Hill," by Whelpley, well-known Yankee composer from down East; the "Evening Star," by Wagner; Tosti's "Good-by,"

# Positive Health Factors are developed in A-DOF-LUS Cheese and Milk

IN A-dof-lus cheese and milk you have the best of health foods. These two delicious products are both made from the purest of milk with its proteins, fats, mineral salts and vitamins. In addition there is a separate and distinct health value due to the high content of those genuine and vital acidophilus plants.

The feeding of these microscopic acidophilus plants is known as acidophilus therapy and is recognized by the best medical authorities as the most beneficial treatment possible for many digestive disturbances.

'Acidophilus' cheese is a concentrate and is equal to a quart of the best acidophilus milk. Either the cheese or milk will be equally effective in the treatment of chronic constipation, intestinal toxemia, auto-intoxication, chronic mucous colitis, high blood pressure, rheumatic conditions or acute intestinal origin. Consult your doctor if you wish—he will probably recommend a 30-day treatment.

## OUR ACIDOPHILUS PRODUCTS

A-dof-lus Cheese, 20c a cake A-dof-lus Milk, 20c a quart  
Delivered to your door

These are original products made exclusively by the

What does the cook-book say about making divinity fudge?

Pour the hot syrup over the egg-whites a little at a time. Then as you beat, you prevent the sugar from crystallizing. Hills Bros. observe this principle of control in roasting coffee. Only a few pounds at a time are roasted. A delicious, uniform flavor is the result.

Explore  
where you will—you'll find  
no coffee to compare  
with Hills Bros

YOUR search for the coffee of your desires ends the instant you taste Hills Bros. Every steaming cup is rich in aroma and flavor. Never insipid—never harsh. Always all right! The pride of the coffee-loving West!

When you consider the precision with which Hills Bros. Coffee is roasted, you can understand why it is The Recognized Standard wherever it is sold. This rare blend of coffee is roasted a few pounds at a time (never in bulk), in an even temperature. That's Controlled Roasting, Hills Bros.' patented process.

Satisfy your longing for genuine coffee by asking for Hills Bros. The Arab on the vacuum tin is your identification. Send the coupon for your valuable booklet, "The Art of Entertaining." It's free.

## HILLS BROS COFFEE

Fresh from the original vacuum pack. Easily opened with a key.

# Of Interest to Women.

## RECENT BRIDE AT YOSEMITE Couple to Make Home at Biltmore

Mrs. Harry Rudolph Jacobson  
(Landscape-Photo Studio)

Erving Boulevard of the engagement and approaching marriage of their attractive daughter, Miss Evelyn Lander, daughter of Mr. and Mrs. Eugene A. Lander, Jr., (Married May Johnston) as her only attendant at the ceremony which will take place at half past four in the afternoon at the home of the bride's parents.

One of the lovely affairs of the day will be the tea with which Miss Evelyn Lander and her sister, Mrs. Donald William Lander, are entertaining this afternoon at the home of their parents, Mr. and Mrs. Lewis W. Anderson, in Lafayette Park Place, the house being from 4 to 7 o'clock. The house will be transformed into a garden of spring flowers, a yellow and lavender color scheme being used in the dining room and centerpieces of roses and sweet peas with a profusion of flowers and tulle, while lighted tapers in the same motif will adorn the tea table. The other rooms of the house will be decorated with great baskets filled with spring flowers in a riot of color and the hostesses will be assisted in receiving and at the tea table by their mother, Mrs. Lewis W. Anderson, Miss Mildred Finley, Miss Helen Whittier, Miss Rosemarie Chandler, Miss Jean DuLin, Miss Mildred Wright, Miss Elmer Moore, Miss Mary McAllister, Miss Gladys Westberry, who by the way returned yesterday from an extended trip South, Mrs. Christy Walsh of New York City, Mrs. Arnold Piger, Mrs. Everett Grubb, Mrs. Mark David, Mrs. John Kelly, Mrs. Leon Goddard, Mrs. Frederick Williamson, Mrs. John Combs, Mrs. Paul Combs, Mrs. Raymond Hunsberger, Mrs. Raymond Tally, Mrs. Marshall Andrews, Mrs. Norman Chandler, Mrs. Hamel Davis, Mrs. Martin, Mrs. Mark Finley and Miss Mildred Whittier.

Six hundred guests have been bidden.

Visiting Parents  
Mrs. Walter A. Eustace of San Francisco is the guest of her parents, Mr. and Mrs. Benjamin L. Webb, Mr. Eustace will join his wife here about the 15th inst.

Back to College  
Ted Walker, who has been passing his vacation with his parents, Mr. and Mrs. Edwin F. Walker of Rossmore Place, Placentia, and brother, Win, who has returned to Pomona College where he is cheer leader for the Freshman class.

Richard Summers of Phoenix, Arizona arrived several days ago for a visit with his former roommate at University of Arizona, Winslow Walker.

Young Walker now is passing his intersemester vacation with his parents and will return next week to his work at the University of California at Los Angeles.

Luncheon Party  
One of the beautifully appointed affairs of recent date was the luncheon given at the Victor Hugo by Miss Cora Bottcher in honor of Mrs. Charles Smith of Beverly Hills, who is en route for a three weeks visit to Honolulu. Those included were Mrs. J. P. Connolly, Mrs. James Canterbury, Mrs. Albert E. Smith, Mrs. Herman Coors, Mrs. Louis F. Stratton, Mrs. Norman Gay, Mrs. Maurice De Mond, Mrs. J. Benton Durand, Mrs. Carlos Hardy, Mrs. Frederick Jungquist, Mrs. Smith and the hostess who took her guests afterward to the matinee at the Orpheum.

Scott-Jacobson  
The ballroom of the Biltmore was the setting January 3, last, of a beautifully appointed wedding, when a couple of Miss Gittel Beverly Scott, daughter of Mr. and Mrs. C. T. Scott of 723 South Western avenue, became the bride of Harry Rudolph Jacobson of Berlin, Germany. The bride was charming in a gown of white veils embroidered in pearls, and wearing a veil of rose point lace and tulle. She carried an arm of orchids and lilies of the valley. The attendants were Miss Dana Markowitz, Mrs. Lorraine Fox, Miss Edith Schuchman and Mrs. Peter Kahn, while Miss Gittel Markowitz was maid of honor and Mrs. Leslie Scott was matron of honor, and the flower girls were Rosalie Abell and Margaret Meyers. One hundred and thirty guests were bidden and after the

ceremony a wedding dinner was served, followed by dancing.

## POLE MARKER LANDS IN JAIL

Young Woman's Curiosity of  
Police, But Keeps Faith  
With Fraternity

When a roughly dressed young man is seen numbering police poles with chalk at 3 o'clock these chilly mornings, police officers are bound to ask questions. And questions were asked, but the toughly dressed young man feared the penalties of initiated members of his fraternity more than he did the questions of the officers, with the result that he spent the rest of the night in University Police Station.

The nocturnal pole-marker proved to be Don Nelson, pledge to one of the social fraternities at Southern California. He was going his final "dukes" as pledge, marking all the poles on Figueroa between First street and Exposition boulevard when officers from University station asked him for an explanation.

Rather than prove faithless to his pledge task and fraternity, Nelson went to jail. The more temperate members of his organization were in time to secure a reward of \$500 for the conviction of the offender.

Don Nelson, 21, of the University Police Station, was taken to the County Jail, where he was held on a charge of disturbing the peace.

## SOUTH GATE TO GET NEW BRICK PLANT

Emaco Company Divulges  
Plans for Construction of  
Factory Costing \$250,000

Pressing the further development of the natural resources of Southern California, plans were announced yesterday by E. M. Smith, president of the Emaco Fire Brick Company, for a new \$250,000 fire brick and tile factory which will furnish employment for 100 men when it begins production within the next four months.

The firm already has purchased six and a half acres of industrial property in South Gate, on Manchester avenue and Atlantic boulevard. The purchase price of the land was \$40,000, it was announced by Mason, Cole & Co., who handled the deal.

The Emaco company owns the own clay mines in San Bernardino, Riverside and Ventura counties, which it has been operating some time. The manufacturers expect to market their product on the Pacific Coast.

Location of the plant in the second large industrial acquisition of that city during the last few weeks. The recently the National Paper Products Company entered the territory and now is giving the finishing touches to a manufacturing plant representing an investment of \$600,000 which is eventually to be expanded to have a value of \$2,000,000. This plant will open March 1 with a monthly pay roll of \$200,000 and giving employment to about 250 men.

## FLOWER POT DEATH DENIED

Beating, Not Missile, Killed Jacob Dietrich, Says  
Deputy Coroner at Hearing of Accused

Testimony that Jacob Dietrich was killed by beating, and not by wounds inflicted with a flower pot, was given by Deputy District Coroner Webb at the preliminary hearing of Elmore Crompton, 28 years of age, charged with the slaying, before Municipal Judge Ballard yesterday afternoon.

Deputy Coroner Webb had charged Crompton with the slaying of Dietrich on December 4. He was called to the stand to explain his findings by Dep. District Attorney Danahy.

The preliminary hearing, which occupied most of the afternoon, was continued until 10 o'clock today.

C. P. Felke, the star witness of the state, whose information caused Crompton's arrest, testified about incidents he had seen take place about Dietrich's home on the night of the killing. He told of an altercation between Crompton and his wife Margaret in the back yard shortly before Dietrich was found dead.

The state's case was supported by the testimony of a neighbor, who said he saw Crompton running from the house into the back yard and then a watchman, who said he saw Crompton running from the house into the back yard and then a watchman, who said he saw Crompton running from the house into the back yard.

## AID PLEDGED FOR HARBOR UNIFICATION

Greater Port Committee  
Commends Call for Action  
Issued by Mayor Croyer

The "best efforts" of the executive committee of the Greater Harbor Committee of Two Hundred toward "successful consummation" of the Long Beach-Los Angeles Harbor unification project are pledged by Henry M. Robinson, chairman of the committee, in a letter received yesterday by Mayor Croyer.

A few days ago Mayor Croyer, after a long period of inactivity in the matter, provided the City Council with a request that the subject receive "the immediate attention of your honorable body." This the Robinson letter commends as "constructive support" which draws "the warm sympathy" of the committee.

"No more constructive program can be entered upon," reads the letter, "than that which will provide for the building of the great harbor, the greatest of the great harbor."

The Mayor is commended in the letter for pointing out in his communication to the Council that the future harbor must be built for and not merely for the present.

The Mayor is commended in the letter for pointing out in his communication to the Council that the future harbor must be built for and not merely for the present.

## Beware Winter's Colds and Chills

To Be Fit Keep the System Free From Toxins.

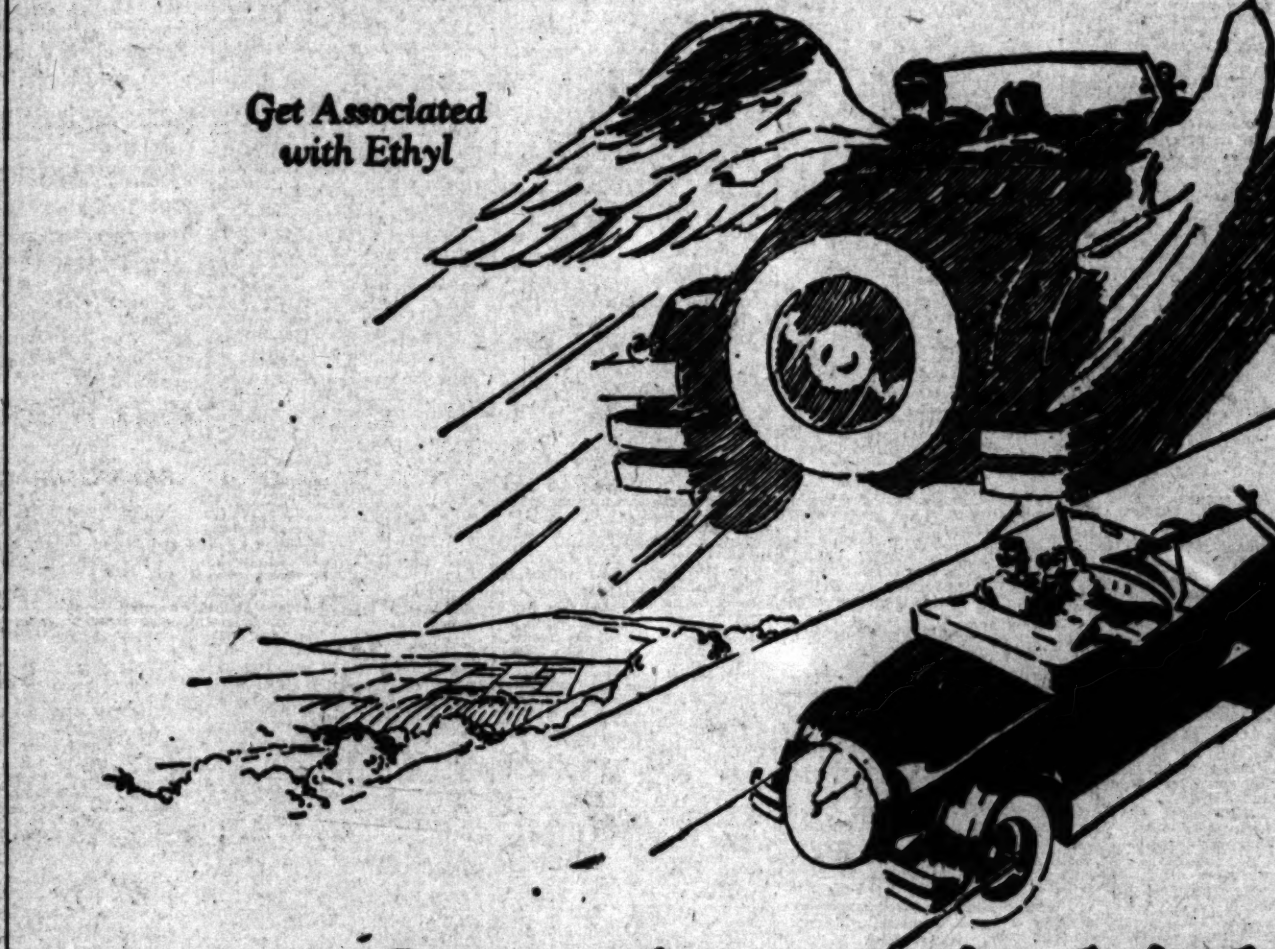

COLDS, chills and changing temperature throw extra burden on our kidneys. Urinary function is apt to permit retention of waste poisons in the blood and make one more susceptible to winter's ill. When such retention occurs, one feels aches, tired and listless—is subject to drowsy headaches, dizziness and perhaps a toxic rash. That the kidneys are not functioning properly is often shown by burning or scanty secretions. Doan's Pills have earned an enviable reputation in these conditions. Ask your neighbor!

## Doan's Pills

## Used Autos Now Easy to Buy!

The selection of a good used car—whatever make or model—is a simple task—just consult—  
TIMES WANT ADS

## Over the top in high— All the time!

A swing over the crest with gears unchanged... with added power and smoothness... as if on wings!

And that's not a flight of fancy... you can test this new motor-thrill yourself. With a tankful of Associated Ethyl Gasoline, a new driving joy awaits you... take it, today!

Associated Ethyl Gasoline works magic in motors. For example, with this plus-motor-fuel, that old enemy, carbon, becomes your friend, inspiring your motor to greater power and speed!

Or maybe your car does the bronco act in traffic, especially when you try and spring ahead from a creeping pace. But not when Ethyl rides with you... get Associated with Ethyl... note the change. Your car responds to the gas like a thoroughly distended to the spur... a new motor-thrill that every motorist easily distinguishes.

Try a tank of Associated Ethyl—the plus gasoline—today. Its color is red. But, unfortunately, not all red gasolines are Ethyl gasolines. Better fill at Associated stations and at dealers who display the pump painted with red, green and cream diamonds!

Associated Ethyl Gasoline is sold for 3 cents above the regular market price of gasoline.

ASSOCIATED OIL COMPANY  
Sustained Quality Products

The  
**PLUS**  
[+]  
Gasoline

Associated Ethyl Gasoline is simply superior sustained quality, "more miles to the gallon" Associated Gasoline produced at the Associated Oil Co.'s refineries plus Ethyl Brand of Anti-Knock Compound, perfected by the General Motors Corporation.

Associated is superior gasoline to start with. Its distinctive chain of boiling points has always given Associated a superior power performance.

Plus, with the addition of Ethyl Compound, this performance is emphasized and developed because the Ethyl Compound, while not a fuel itself, does create within the motor better conditions of combustion. Associated gasoline thus gives a far larger measure of its inherent power and speed—qualities already there, but heretofore not fully released.

## PASTORS SCORE SCIENCE FOES

Telling Blows Mark Talks at Theological Conference

Danger to Religion Seen in Alienation and Opposition

Unity Held Necessary for Welfare of Mankind

By a "Times" Staff Correspondent  
PASADENA, Feb. 3.—Churchmen who oppose science as an un-Christian pursuit were dealt telling blows today in the addresses of Dr. Frank Dyer, pastor of the Westminster Boulevard Congregational Church of Los Angeles, and Dr. William C. Bittling, pastor of the Second Baptist Church of St. Louis, before the annual theological conference at the Pasadena Presbyterian Church.

In fact, Dr. Dyer declared flatly that the church should "sit at the feet of science" and learn. "If an attitude of alienation and opposition between science and the church should be set up definitely, it would place the church in the position of defending ignorance, while at the same time it would cause a dangerous situation, if the vast power of scientific knowledge should be uncontrolled by the humanitarian motives which the church should properly supply, he said.

**POWERFUL ENEMY**  
"The church has enough opposition in human selfishness and sinfulness without setting about the creation of unnecessary opposition," he said. "And science, if the church should make it an enemy, would be the most powerful enemy conceivable. The church would array itself against the best minds and the most highly educated men in the world."

"Another reason why the church should sit at the feet of science is because science is now the major source of man's knowledge. It is certainly out of place for a churchman with a lay knowledge of scientific problems to attempt to decide the truth of very new theory."

"For another reason, science is the major benefactor of the human race. This is obvious when we consider the work of science in relieving human suffering and disease and even in preparing the very food we eat."

"Finally, the church cannot afford to alienate itself from science because the humanitarian principles of religion must be applied to scientific knowledge for the greatest good of man."

**"FOGIES" SCORED**  
Likewise upholding the essential unity of religion and science, Dr. Bittling scored "old fogies," he said, who occupy pulpits today, preaching "antidivine" doctrines.

Dr. Lloyd C. Douglas, of Los Angeles, declared that more people would be interested in religion today if they felt that God was interested in the modern world as he was in the world at the time of the prophets.

"The Modern Soul and Its Worshipping Mood" was discussed by Dean Harry Seal of St. Paul's Cathedral, Los Angeles.

Harry N. Mathews of New York, said secretary of the World Alliance for International Friendship, made an earnest plea for the breakdown of national prejudices and hatreds, urging the outlawry of war.

Bishop Charles Edward Locke of St. Paul closed tonight's session with a brief talk, "The Growing of the Soul."

The conference, which met in Los Angeles the first three days of the week, will close tomorrow night after an all-day session at the First Congregational Church of Long Beach.

## CONTEST GAINS IMPETUS

Principals Tell of Students' Interest in Preparing Orations on Constitution

An army of high-school students in Los Angeles are already enlisted in the Fourth National Oratorical Contest and to judge by the expressions of principals it is evident that the event is creating more enthusiasm here than any other of the contests proceeding it. Communications to Director Nichols from some of the school men are quoted:

"Our students are showing more interest this year than any time since the contest movement started," said Ernest Oliver, principal of Los Angeles High. "Aside from the interest in the contest itself, we have also noticed a growing interest in the Constitution, that we attribute to the stimulus created by the contest, which has made the basic law a live topic among our students."

**HIGH ENTHUSIASM**  
Willis A. Dunn, principal of Polytechnic High School, predicted a greater success for the contest this year than at any previous time. "I base this prediction on the enthusiasm with which our students participated in the contest last year, which I believe is exceeded by their interest this year," said Mr. Dunn. "We are looking forward with great anticipation to the semifinals, which are to be conducted in our auditorium."

"It goes without saying that our school will participate in the contest," said Charles E. Moore, the principal of Franklin High School, one of whose students, Don Syler, won the national championship in 1926. "Our students are extremely enthusiastic about the contest."

"I may say in this connection that the interest in the contest at Franklin is not so much due to one of our boys having won first prize as it is to the fact that we feel that the contest movement is a good thing."

Theodore Fulton, principal of Jefferson High School, said the students of that institution are exceedingly interested in the contest and that a large group are preparing orations.

"We have entered the contest every year since it was organized," said Albert Wilson, principal of the Manual Arts High School, "and our students are entering with enthusiasm again this year."

**HOPE TO REPEAT**  
"Our students are going into the contest in the hope of equalling last year's record, when one of our students, Herbert Wenig, won the national and international awards," said Dr. W. H. Snyder, principal of Hollywood High School.

Lincoln High School is very enthusiastic about the contest and many of its students are now preparing orations," said Ethel Percy Andrus, principal of Lincoln High School.

"Our pupils are just starting their preparation of orations and they are very enthusiastic," said W. W. Trist, principal of Belmont High School, while Rae O'Neil Van Cleave, principal of Fairfax High School, stated that the students in that institution are already working hard on their orations.

"While this is only a junior high school and has not been established very long, we already have an enthusiastic group of students busily preparing orations," said Angus L. Kerr, principal of Warren O. Harding High School.

Roscoe Chandler Ingalls, principal of Garfield High School, stated that his school will have a large number of entrants in the contest, including many who participated in last year's contest.

**BUSINESS ON COAST HELD TO BE BEST**  
Member of Advertising Concern Paints Optimistic Picture of Prosperity

Business opportunities in greater number than in any part of the country are being presented on the Pacific Coast at this time, in the opinion of W. W. Armistead, president of Philadelphia, a member of N. W. Ayer & Son, the oldest and largest advertising agency in the world.

Mr. Armistead, who arrived at the Biltmore yesterday, is making a tour of the Coast, coming here from Seattle. He is considering the possibilities of the firm on this coast and calling on clients. He is accompanied by Sterling E. Peacock of San Francisco, in charge of the firm's Pacific Coast business.

"This is my first visit in this part of the country and I have been greatly impressed with both the accomplishments and the opportunities and also by the spirit of the people here," said Mr. Armistead. "Of course, I have read a good deal about California and other parts of the coast, but it is impossible to get a proper understanding of the situation without actually seeing it, and now that I have seen I am prepared to say that the reality exceeds what I had been led to expect from reading about it."

"We started 1927 with a larger number of future orders for advertising in newspapers and magazines than we ever began any previous year, which indicates that many of the 'biggest manufacturers and producers of the country are also looking forward to greater consumer demand this year than ever before. National advertising is one of the best business barometers in the country today."

Mr. Armistead stated that the confidence in the future of N. W. Ayer & Son is indicated by the firm's planning to erect a \$1,000,000 building in Philadelphia during the present year.

"So far as I know, it will be the first building in the world designed solely for the requirements of an advertising agency," he said. "The building will house about 600 employees of the firm."

**STREET LIGHTS REQUESTED**  
Lighting appliances that will ornament Eighty-fourth Place from Avalon Boulevard to Central avenue, are requested of the City Council by E. L. Laffey, a person and others in communication sent to the body yesterday.

## CANTOR TO APPEAR IN FROLIC SKIT

Wampus Arranges First Stage Presentation of Comedian Here in Years

Privilege of again seeing Eddie Cantor in person on a Los Angeles stage is about to be realized by at least 3000 persons the 17th inst.

This is made possible by the entertainment committee for the sixth annual Wampus frolic and ball to be held in the Ambassador Auditorium on that date. Cantor, who has not appeared in Los Angeles stage production for a number of years, having confined his histrionic ability to audiences in the East and abroad.

Older residents of Los Angeles recall Cantor's appearance at the Moorpark Theatre in "Canary Cottage" in 1916. After five months here in that production he went East and has appeared there ever since.

While Cantor was here last year making a film version of his stage play, "Kid Boots," he seldom was seen in person, except at small gatherings. Eddie is working on an idea for his appearance.

The screen publicists have borrowed William Wrigley's slogan for a certain island trip and revamped it to describe this year's event. Their version is "in all the world no show like this."

They came from Columbus, O., where Brig-Gen. Strong spent nine weeks in a hospital. The doctors ordered him to come to Southern California just as soon as he was able," he said today. "They said that the sunshine would do me more good than any medicine, and I'm certainly glad to be here. I know I'll be in good shape again in a few days."

Although he is 71 years of age, this is his first illness. Never in the forty-three years of his active army service was he on the sick list, he said today.

He was graduated from West Point in 1890 and retired from the Army in 1914 with the rank of brigadier-general. During the war, when he led the Fortieth Division overseas, he held the rank of major-general. The division included California, Utah, New Mexico, Arizona and Colorado troops.

Included in the delegation at the train were Col. C. P. Hutchins, Mrs. Agate Baldwin, who was active in war work, and Father Keating of Riverside, chaplain of the division during the World War.

The battle fleet's final practice of the gunnery year, prevented yesterday by poor visibility, will be engaged in today by the three ultra-modern dreadnaughts, the California, Colorado and Maryland. The exercises will be witnessed by Army and Navy ordnance and gunnery experts.

The ships will engage in long-range indirect-fire practice. The main-battery fire of all the ships will be concentrated on a target below the horizon, with the control data being radiated from airplanes.

Today the dreadnaught squadron will complete provisioning and preparation for the cruise to the Atlantic, while all ships will also conduct signal competitions. This week and next.

Division landing force drills, in preparation for the war games with the southern fleet, will be conducted by all ships next week, as follows: Tuesday, Battleship Division Three; Wednesday, Battleship Division Four; and Thursday, Battleship Division Five.

Final touches of preparation for the 15,000-mile cruise will be effected on the 14th, 15th and 16th inst., the fleet departing for Panama on the 17th inst. The California will arrive in New York at daylight this morning on her westward swing around the globe. Frank C. Clark is sponsoring the 28,000-mile tour when she sails for the Orient tomorrow morning. The California will have 630 travelers aboard.

The California, built expressly as a cruise ship, is regarded as the most admirably fitted ship of her type afloat. Her commander this season is Capt. Alexander Collie, for thirty years an officer in the United States Navy. She will have 500 passengers aboard when she arrives this morning, among whom are thirty who joined the ship at Honolulu. One hundred and forty travelers will board the California here.

Prominent among the Californians sailing are ex-Gov. and Mrs. Richardson of Long Beach, Wendell Black, Long Beach oil operator, and Mrs. Black, and former State Highway Commissioner Harvey M. Toy.

Her passengers will be met when she docks at Pier One this morning by a fleet of automobiles for an all-day tour of the Southland. The ship will be open to visitors during the day.

**ORNAMENTAL LIGHTING ASKED**  
Fourteenth street, from San Pedro street to Central avenue, will be ornamentally lighted if the City Council acts favorably on a person presented to it yesterday by the Reed-Smith Company and others.

## SAN GABRIEL TO BE MECCA

Thousands in All Parts of World Write of Plans to Witness Performance of Mission Play

With the opening of the Mission Play in its new \$600,000 home only a few weeks distant, thousands of letters have been received from persons in all parts of the world who are planning to visit California and wish to witness the performance, according to Norman Sprowl, business manager.

Work on the Mission Playhouse at them over to the people of California without cost. The new playhouse occupies the center of a seven-acre tract which once was a part of the cactus-walled compound of the old San Gabriel Mission. Many objects of historical interest still remain, one of which is the world-famous old San Gabriel grapevine, which was planted early in the Eighteenth Century. This is believed to have been the first grapevine planted in California.

It is planned later to erect an Indian village on the grounds, reproducing exactly the homes of the people who populated this region at the coming of the first white men. Indians, descendants of the original tribe who lived there, will make their homes in the village.

Two hundred seats have been reserved for the opening night, to be sold at \$100 each, and there are indications that this will be the greatest season in the history of the play, at least from a financial standpoint. More than 2,000,000 persons have witnessed the play since its first performance and McGroarty is said to have refused an offer of \$100,000 for his rights, after which he signed making a film version of his stage play, "Kid Boots," he seldom was seen in person, except at small gatherings. Eddie is working on an idea for his appearance.

The screen publicists have borrowed William Wrigley's slogan for a certain island trip and revamped it to describe this year's event. Their version is "in all the world no show like this."

A joint city-county improvement of the west half of Warner Drive, adjoining the site for the new University of California at Los Angeles, is under consideration. The Board of Public Works has recommended that the City Council appropriate \$11,000 for the work, the Board of Supervisors will appropriate a like sum.

**ROTARY TO HEAR RUBINI**  
Jan Rubini, violin virtuoso, will play before the Rotary Club at the regular luncheon today in the Biltmore. Rubini, in addition to being an accomplished violinist, is a composer of notes, and has toured both this country and abroad. The address for today will be given by John C. Forbes.

**BOY DID NOT MARRY**  
Billy Rowley, 8 years of age, was not "disappeared" by the Santa Fe station night, police said yesterday. They found him in his home today at 1512 Third avenue.

Disappearance, official explanation was that Billy Rowley had had a quarrel with a girl named Mary, who had been taken from Texas with him. The child was turned over to juvenile authorities, and the ground that he had been given into her charge.

## Citizens Will Pass on Play Held Obscene

No action will be taken by City Prosecutor Friedlander with regard to the showing of "An American Tragedy" pending the outcome of an agreement to tone down the bedroom scene in the play, Friedlander announced yesterday.

Friedlander said he had conferred with the management of the Wilkes Vine Street Theatre after receiving complaints that the play contained obscene portions, and Wilkes agreed to modify the scene. Wilkes, according to Friedlander, asserted the play has a great moral purpose and he said he will invite ministers, members of the Parent-Teachers Association and juvenile authorities to view it.

According to a representative of Alfred G. Wilkes the play, which is based on Theodore Dreiser's novel, will be shown unchanged, pending a showing before a "jury" of 150 citizens. The jury showing, according to this version of the affair, was Friedlander's suggestion.

**ROTARY TO HEAR RUBINI**  
Jan Rubini, violin virtuoso, will play before the Rotary Club at the regular luncheon today in the Biltmore. Rubini, in addition to being an accomplished violinist, is a composer of notes, and has toured both this country and abroad. The address for today will be given by John C. Forbes.

## Change Made License Law Cats and Dogs

Animal license law, enacted by the City Clerk, will be amended by the City Council to provide for the licensing of cats and dogs.

The ordinance amending the animal license law will be introduced by the City Clerk, who has received many complaints from the public regarding the licensing of cats and dogs.
